EVERGREEN & GOLD

INSIDE OF FORT EDMONTON, 1884

The Annual Publication of the Students of
the University of Alberta at Edmonton

GR

THE ABOVE PICTURE, SHOWING THE HUDSON'S BAY COMPANY'S NEW MODERN STORE AT 102nd STREET, EDMONTON, WAS TAKEN AT ALMOST EXACTLY THE SAME SPOT AS THE PICTURE ON THE RIGHT. THIS WAS TAKEN ABOUT 1900 AND THE COMPARISON OF THE TWO GIVES A STRIKING REALIZATION OF EDMONTON'S GROWTH IN THE LAST FORTY YEARS.

FOREWORD

Throughout this volume of *Evergreen and Gold* we have endeavoured to show the great changes which have taken place in Western Canada in the last sixty years. To accomplish this we have depicted various scenes as they were many years ago, and wherever possible have shown those same scenes as they are today.

The progress that the West has made is readily seen. The crude forts of early pioneering days have given way to cities. Dog teams and cart trains have disappeared, with streamlined trains, and modern aeroplanes taking their place.

But if all these sights, so familiar to those who knew the West when it was the frontier of civilization, have disappeared, it is to be hoped that the spirit to achieve and progress has not, and that sixty years from now *Evergreen and Gold* will portray changes as great as those which are shown in this book.

FIRST TRAIN ENTERING EDMONTON

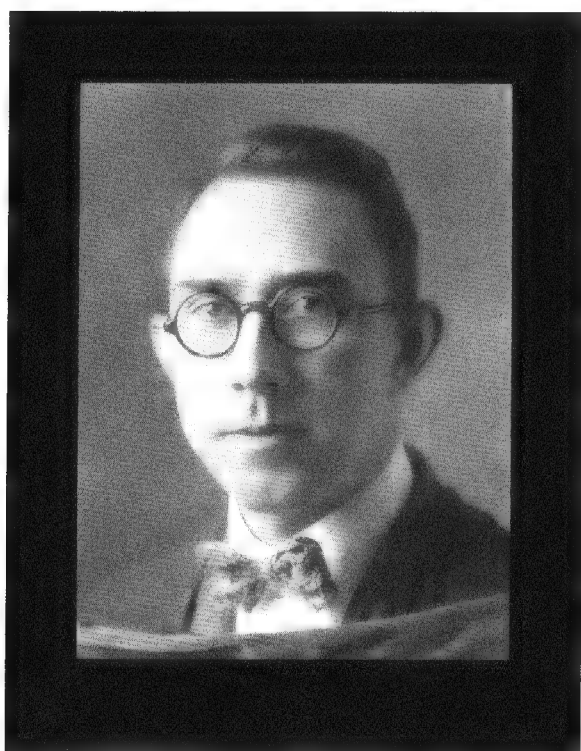

DEDICATION

SCIENTIFIC ACHIEVEMENT has never been so rapid or so revolutionary as in modern times. The inventions of Bell, Diesel, Edison, the conquest of the air by the Wrights, the amazing discoveries of Pasteur and Koch, the many other accomplishments of scientists, all have changed immeasurably the lives of men. All were done with but one underlying principle. We honour that small group of men who had the determination and the ability to so greatly benefit mankind. Scientific achievements, the realities born from the dreams of men whose ambitions were greater than themselves. It is right that they will never know to what extent the results of their work have been prostituted by a world gone mad with prejudice, hate, and the lust for power. We dedicate this book to Scientific Achievement, to those men who struggled and conquered to aid humanity, and to those who will carry on the search for truth from where those great men of Science left off.

PROFESSOR NORMAN McKEE STOVER, Associate Professor of Chemistry, died at his home, 11112 90th Avenue, on October 29th, 1938. Dr. Stover's parents came to Minburn, Alberta, in his early boyhood. He graduated from the University of Alberta in '18, took his M.Sc. in '21 and his Ph.D. at Illinois, in '26, returning to his Alma Mater in '27 as lecturer in the Department of Chemistry. Dr. Stover will be remembered for his consideration and kindness towards his students, for his clarity and conciseness as a lecturer and for his loyal co-operation in building up the Department of Chemistry. As a mark of esteem he was honored by the class of '34 by being elected Honorary President.

President's Message

WE are at the moment living through one of the most exciting hours of modern history. The pace is killing, and the thoughts of hosts of people turn back yearningly to the pre-war days as to that mythical golden age of peace and content to which the ancients were wont to direct their longing eyes when life to them grew too crude and cruel.

Perhaps the Weltschmerz of our time has some justification, for the losses caused by the great war were enormous, perhaps in some senses irretrievable—life had seemed so stable in those far-off days; the old standards of conduct, if already seriously undermined for the intelligentia, still stood solid and strong for the mass of humanity; men and trade moved freely and easily up and down a friendly earth; political liberty of the British parliamentary type seemingly was creeping slowly but steadily over the civilized world. Now, in their old accustomed forms at least, it must be admitted some of these great assets of the past are gone, never to return.

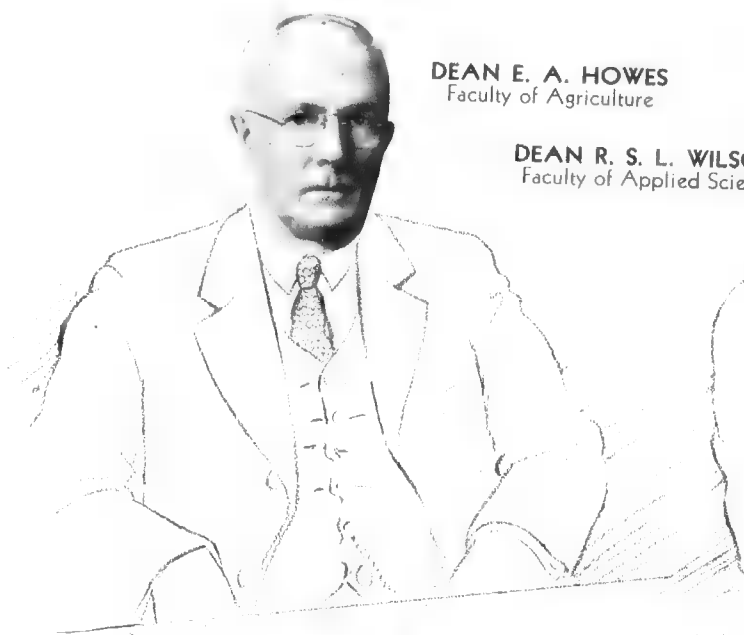

Yet all is not loss. There are indeed substantial gains of positive import to the future of mankind. In the realm of the mind the terrible hurricane of the great war swept away much outworn dogma that for centuries had cramped and choked the god-like powers of man, and now we stare clear-eyed—perhaps for the moment too clear-eyed—at the bare unshadowed backgrounds of the real world.

Again, the social sympathies of men have immeasurably widened and deepened in the past score of years. The old class struggle is losing interest and indeed in some countries, curiously enough, has been stamped out under the spurred heels of the belated contemporary dictators. Elsewhere in general over the world a kindly sense of responsibility towards the unfortunate and the unfit grows daily in warmth and practicality.

There has emerged further a renewed and vivifying belief in the validity of the continuous advancement of learning and the tireless pursuit of scientific research.

These are gains of a high order, serious and significant gains, and will not be disregarded when the cultural and spiritual achievements of our age are finally passed judgment upon.

ELEANOR AIELLO

History of Class '39

It seems only yesterday that we, the Class of '39, like Falstaff's ragged recruits, first flocked to 'Varsity. Our paths have led us where we have been well peppered!

But the wounds dealt by swaggering Sophomores and supercilious Seniors have not proved mortal. The long hours of "plugging" and pouring over books, the innumerable cups of black coffee consumed before the first examinations, have been long forgotten, together with the weeping and gnashing of teeth over the first results. Most of us have discovered that sense of humour and that happy medium that balances the world. We have dwindled into human beings.

While here, we have learned that the greatest benefit to be derived from a university lies, not so much in individual activity as in whole-hearted co-operation, both with our professors and with our fellow students. We have learned the importance of open-mindedness and toleration of the opinions of others. We have learned to broaden our intellectual scope, by virtue of which, we the care-free, irresponsible Freshmen of yesterday, have become the serious-minded Seniors of today.

On the other hand, we have forgotten many of the vexations and disappointments that we have experienced, and have cherished "only the sunny hours."

All that we have done in the various branches of activity cannot be recounted in this small space—nevertheless, each individual effort has contributed to the success of our undertakings and the continuation of the finest traditions of our university.

As Freshmen, Class '39 displayed remarkable ability in Athletics. We have not forgotten the Freshman Reception, the first formal dance we could call our own.

As "swaggering" Sophomores, anxious to regain our prestige, we were only too glad to greet the crop of green Freshmen and "show them the ropes." Our Reception, with its "Heavenly" motif was quite suited to the naive and simple nature of these cherubs, scrubbed beaming, and happily uncomfortable in their first "monkey suits."

Our Junior year was especially noted for its literary tendencies, our great pride and joy being the production of "The Happy Journey," one of the most outstanding plays ever entered in the Inter-Year Competition, and which later represented Alberta at the Winnipeg Drama Festival. The "Prom," despite the shortage of funds, far surpassed the expectations of even the most sceptical.

Now that we have reached our Senior year, we pause to complete the inventory of our university accomplishments. We find that "Most of sterling worth is what our own experience preaches." We find that we have reached a turning point in life, where we shall be obliged to shoulder our own responsibilities—where we shall be expected to face the realities of life without flinching, and prove ourselves worthy of our Alma Mater. In conclusion I can only say with Tennyson:

"I leave thy greatness unexpressed . . .
I leave thy greatness to be guessed."

ELEANOR AIELLO

ARCH McEWEN

Valedictory

WITH the close of another University year, many of us have arrived at the parting of the ways—leaving one phase of life to enter into another. Approaching that period even the least reflective, the most cynical of us must pause and review these past few years, but as the time draws near for our departure we realize more and more the value—the deep sentiment and the friendships we have gained during our too short stay within these halls.

In gaining knowledge and acquiring an education it is to be hoped that we have realized that it is all important to know man and his ways—to know his wants and his needs and to learn the act of service. Within our university we have had some opportunities to learn such values. Many of us have held office in our student government and have learned there the importance of responsibility, the advantages of honesty and the value of compromise. We have played in games and been spectators at others and always we have admired the sportsman—the chap who could gracefully win, and when occasion arose, graciously lose. So with all our phases of student life—literary, social and countless others we have had one aim—that of playing the game and in so doing, forming lasting and valuable friendships.

It is hoped that these many and varied contacts will broaden our outlook. Education is more than just learning facts and propounding theories; it is more than knowing bookish knowledge. For to know our fellowmen is the very essence of fulfillment.

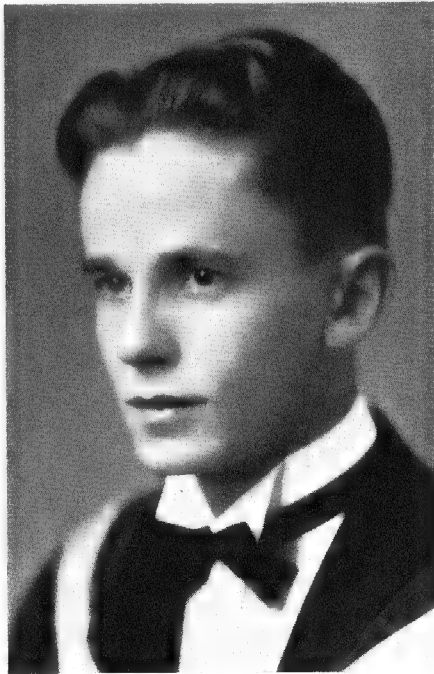

We talk of culture—let us not only think of culture in studying Greek and Latin Classics—of music and literature. He is cultured who can graciously know and accept his acquaintances—who can serve his friends and his country. Our University teaches us ideals—not only to think of them but to live up to them. In a world so filled with discordant note, of suffering, agony and war, we may practice those thoughts which have been instilled into our characters.

Leaving this campus it is our duty to live up to the rights that have been bestowed upon us, for we take with us a degree granted by our University representing its approval of our abilities. Going into our respective fields of enterprise it is hoped that we will always remember the finer thoughts and ideals that we have learned, and that we will always righteously pursue the ever-glowing torch of knowledge.

The limitations of our abilities are found within us. We should have a moral sense of responsibility and obligation both to those men who have devoted their lives to teaching us and to the country that has made it possible.

It is not our wish to bid farewell, for throughout our entire lives we will always feel warmly towards our Alma Mater. We offer thanks for all it has given us and sincerely hope that through our endeavour we will prove ourselves worthy of the title—"There goes a man."

ARCH McEWEN.

JACK DEWIS
President

SENIOR

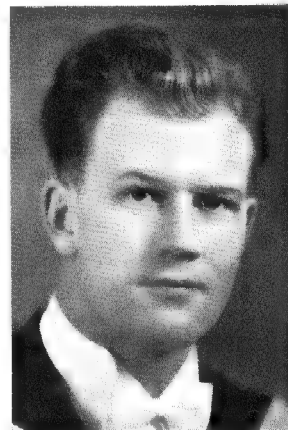

TIME MARCHES ON!

Four, five and six years ago, we of Class '39 first set foot upon the threshold of higher learning. In retrospect we see ourselves as first we entered "Alberta," our hearts filled with doubts, and fear of the unknown. As time went on we grew accustomed to University life, realizing its advantages in both educational and social spheres.

Some of us have concentrated on our studies, systematically planned by those men who are there to guide us, our lecturers and lab. instructors. We may not have agreed with all they endeavored to teach us, but they have stimulated our interest and opened up new channels of thought. Others of us have sought our education within the sphere of Student Government, in the Gateway,

Hon.-President

JEAN COGSWELL
Vice-President

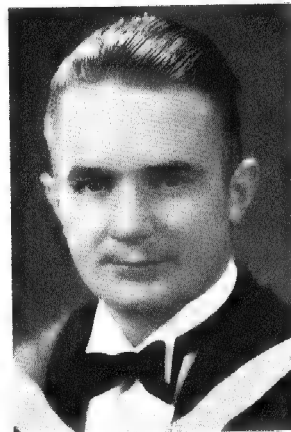

the Year Book and other student organizations. To some it has been their dominant interest. They have spent much time and energy in those fields and in return they have gained much valuable experience and practical executive training.

As the years have rushed swiftly by, we of the graduating Class of '39 have acquired knowledge, experience, and most important of all, hope with which to face the future. We step now from the halls of learning to go forth, not unmindful of the years passed together in work and play. The bonds of comradeship so formed, will not be lightly broken.

With a last lingering look over our shoulders, we of Class '39 say, "Good-bye 'Alberta'".

JUNIOR CLASS

OUR Junior Year is over.

We, the Class of '40, may look back with pride upon a winter of wide interests and of hearty participation in Varsity life.

Both in curricular and extra-curricular activities we have done our part. Our entry in the Inter-Year Play Competition, "And So To Press!" pleased by its neat appreciation of comic contrasts and pantomime, earned for the leading characters a place in the Spring Play.

On December 2nd, 1938, under personal care of Snow White and her Seven Dwarfs, (Thank you Mr. Disney!), and with King Winter safely shut out behind frosted windows, we forgot for one night the bogey of examinations and the worries of world crises.

We owe our thanks to our Honorary President, W. G. Hardy, for an ever ready helping hand.

May we hope in parting that when another year has clouded the shape of present things, that these few pages may pleasantly recall the "old familiar faces."

SOPHOMORE CLASS

SOME long forgotten university wit perhaps first joined the Greek words for wise and foolish to form the name Sophomore. Certainly our first two years have taught us that we know little, that we are indeed the wisely foolish. We have learned to look upon ourselves and smile, to temper enthusiasm with reflection.

To us fell the pleasant task of welcoming the new Freshmen Class. As always the Sophomore Reception proved the most lively ball of the year.

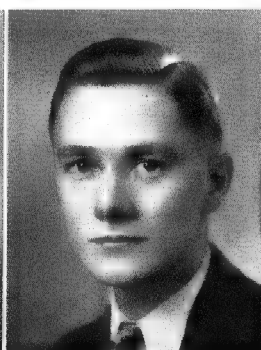

Our play, "Trifles," a dramatic adaptation of Susan Glaspell's tragic tale of the American West, "A Jury of Her Peers," was presented with dignity and restraint, and won for us both the best play and the best actress awards in the Inter-Year competition.

It is to be hoped that the qualities which have made this year a success will again enable us to press the pace and urge those ahead to "step a little faster."

FRESHMAN CLASS

AS one of the largest Freshman classes to enter this University, the class of '39 has shown enthusiastic co-operation throughout the year. In the Frosh elections, the class play, the sleigh ride, the informal party, and the reception to the Sophomores, Freshmen have revealed a group spirit that Senior classes cannot boast.

Not only in social and academic activities but in the field of sport Freshmen have done their share to keep alive the traditional collegiate feeling of the University.

For us this year is just a beginning, and it is with every confidence that we press on to a pleasant and instructive future in our campus life.

STUDENTS'

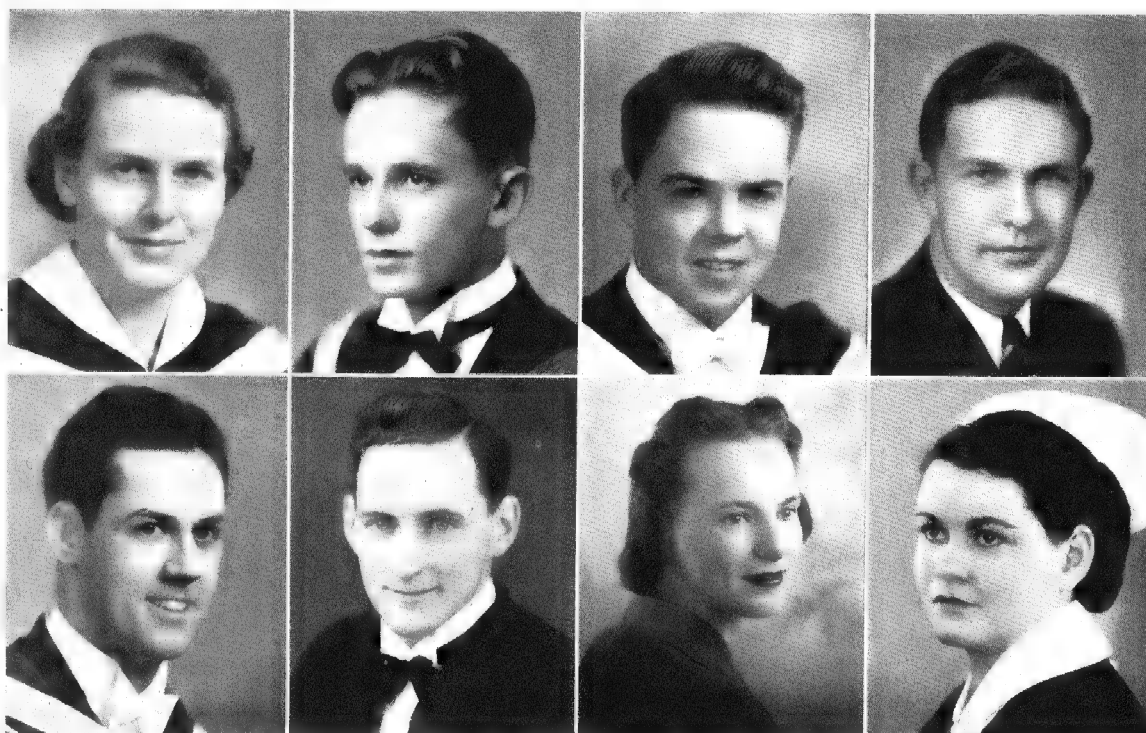

1938

WITH its members representing every phase of student activity, the 1938-39 Students' Council looks back on a year of ups and downs with no small measure of satisfaction. Our year, measured in terms of the problems with which we have dealt, and interest shown by the student body, has been successful.

During Freshman Week special efforts were made to have the Freshmen feel at home on the Campus, and with a new system of introduction, the largest Fresh Class in the history of the University was successfully ushered into university life.

More progress was made this year in the perennial question of the Students' Union Building. A special Committee investigated methods and possibilities of financing construction in the near future, and although the year ended before a full report was available, the indications were that the plans laid so long ago are nearing fulfillment.

Through the newly organized Provincial News Department, and by supporting such ventures as the Philharmonic Society's trip to Calgary, Council made every effort to bring Student enterprise before the people of the province in a favorable light.

COUNCIL

1939

Athletics played a prominent part throughout the year. In the fall a resolution was passed asking that a plebiscite be placed before the students to sound out opinions regarding the advisability of continuing Inter-collegiate Rugby. In the light of later developments the plebiscite was abandoned and arrangements were made whereby Intercollegiate Rugby could be continued on a firmer financial basis.

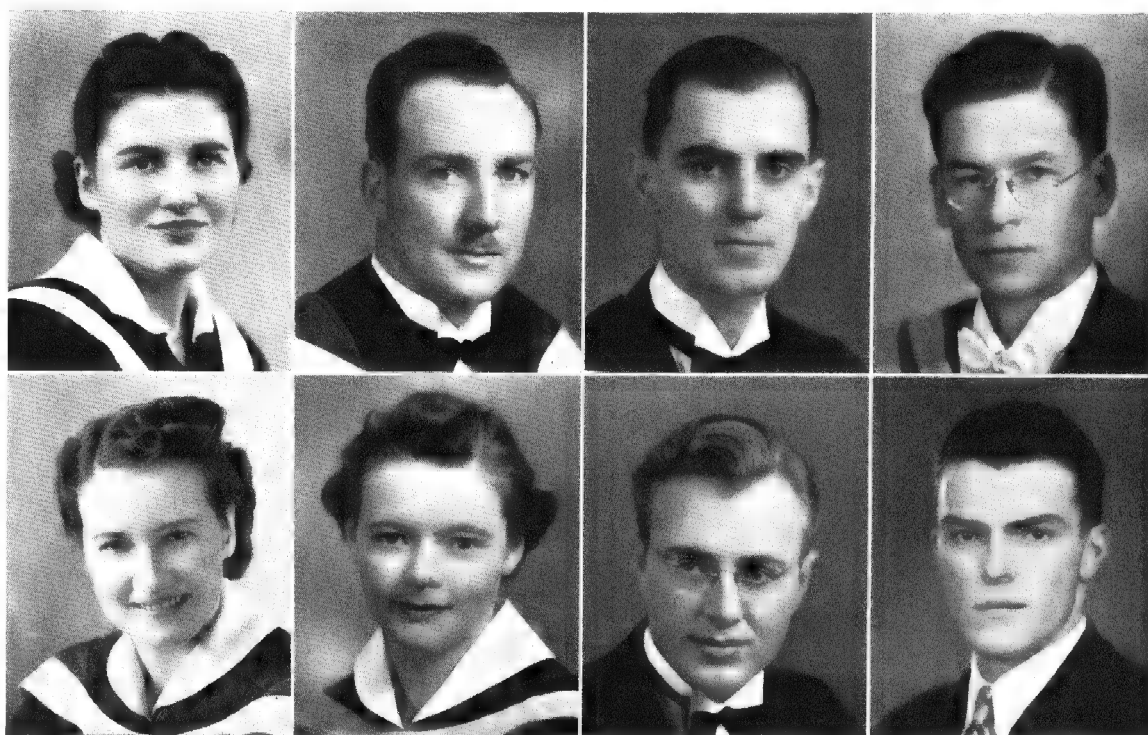

To provide for more efficient administration of Women's Athletics the hard-working Women's Athletic Executive revised and amended their constitution. Women's Hockey, which had to be abandoned due to lack of support and interest, was replaced this year by the Women's Archery Club.

With full co-operation and very fine relationships between Council and University authorities, the Medical-Engineer fracas was averted and the hatchet, so to speak, was officially buried.

Throughout the year Council has invited and has received, criticism from the students. Under a system which is admittedly not infallible, we trust that the business of Students' Union Government has been given the full attention it rightfully deserves.

St Stephen's College

A SPIRIT of co-operation and good fellowship has continued to exert its influence upon the lives of the eighty men, representative of all faculties, resident in St. Stephen's College during the year 1938-39. This spirit is fostered by the harmonious relationship between the students, the House Committee, the Students' Council and the management.

Social and Athletic activities maintained the high standard set in past years. Basketball and volley ball offered healthful recreation for all within the college. Feature athletic event was the inter-corridor Jamboree with its many varied events.

The annual fall hike together with social evenings contributed greatly to the enjoyment of student life.

Morning chapel services open to all University students, and informal vesper services for residents of the College, provided stimulus for finer spiritual life.

The House Committee

DURING the university year, it is the duty of the House Committee to keep a weather eye peeled over the three residence buildings, for any signs of lusty young spirits getting out of hand. However, the duty this year was more theoretical than real, for, although a few students did manage to run foul of the law for minor misdemeanors or "good clean fun" as it is called, there were no serious outbreaks of disorder to mar the tranquility of our "home away from home." The House Committee is indeed fortunate in having students who will co-operate in maintaining a moderately peaceful atmosphere in residence, and who will allow difficulties to be settled by diplomacy rather than by force.

Our outstanding social event of the year was, as usual, the Christmas banquet and dance. Mr. Abdulla Yusif Ali, our noted guest of honor for the evening, helped us to enjoy ourselves and forget the impending Christmas massacre staged annually by the faculty.

Table hockey hit a noble stride this year, with sixteen teams battling into the wee small hours of many a morning, for the honour of sinking a tooth into the turkey dinner given in lieu of an Allen or a Stanley Cup.

To Miss Dodd, Dr. MacEachran and Mr. Jones for their kind co-operation, and to Reg. Lister, an Angel of Peace in any residence, the House Committee gives its heart-felt thanks for a grand year in residence.

The Wauneita Society

TWENTY-SEVEN years have passed since a few women students pledged loyalty and friendship to one another. Their purpose has been realized in a steady growth and success of the Wauneita Society on this campus.

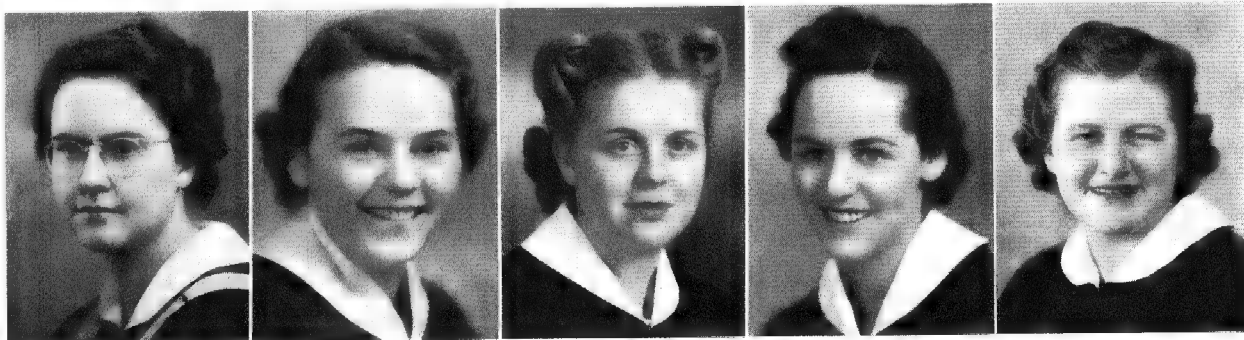

This year the Society co-operated with the Students' Council in the Introduction Week by arranging campus tours, a hike and tea for the Freshettes. The formal Initiation Ceremony climaxed this week of activities.

The Reception to men students, the first formal of the year was a great success.

We were indeed fortunate in having Miss Florence Dodd as our Honorary President this year for she has always shown so much interest in our society.

The Annual Banquet, besides being a highlight in the season's activities, was marked by a significant feature—the short history of the Wauneita Society, by the first President, Mrs. R. J. Russel.

By casting a backward glance our vision for the future becomes keener—we see the success of the Wauneita Society in years to come.

The Covered Rink

FOR another successful season the Rink has served its patrons. On Tuesdays, Thursdays and Sundays throughout the winter months, the lilting strains of "The Skaters' Waltz" and "The Man on the Flying Trapeze" have guided the skating pairs rythmically over the smooth crystal floor of our Ice Palace.

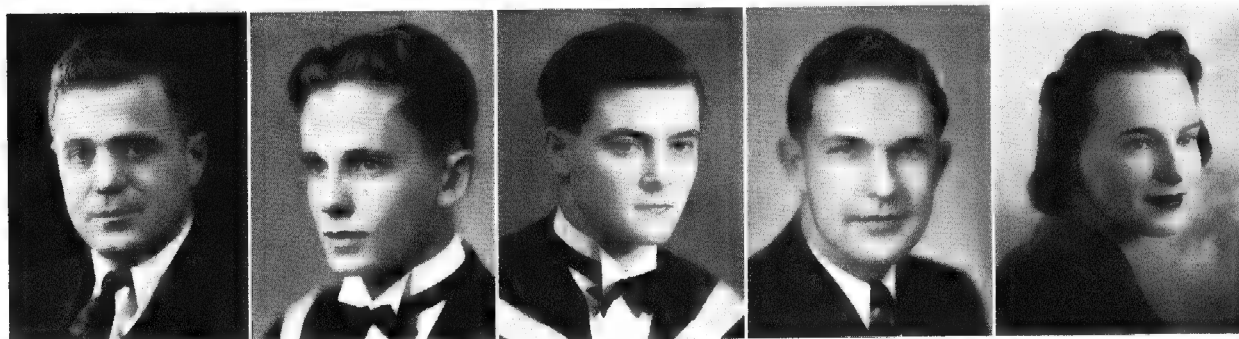

It has been a season of extremes. We have experienced temperatures varying from California's pleasing warmth, when skating was impossible, to the tingling extremes of Aklavik's sub-zero temperatures when none but the most enthusiastic cared to risk their noses in the wind. Then there have been those just right days when great crowds poured toward the newly-painted structure. It has been a season of all-time highs and all-time lows.

St. Joseph's House Committee

THOUGH St. Joseph's House Committee is but one of the organizations from whose smooth functioning the College benefits, nevertheless it is always looked upon as one of the most important.

Discipline—especially that which is actually or virtually self-imposed—is of such paramount importance that it is hard to conceive of a University residence where it is either entirely lacking or weak. This the average student seems to grasp readily; which accounts for the fact that, after casting his ballot for five of his fellows whom he deems best qualified to maintain a fair standard of discipline, he readily submits to their rulings. These rulings are generally so moderate and reasonable that they gradually bring new-comers to the College to the realization that the observance of the house regulations is an essential requirement to residence.

Thus does the College endeavor to make its contribution to a well-ordered existence on the Campus of the University to which it is privileged to belong.

Women's Disciplinary Committee

THE purpose of the Women's Disciplinary Committee is to maintain a standard of conduct among the women students that will reflect only credit on our University.

To aid the committee in carrying out its purpose it has passed rules to which women students must adhere and which the committee has the power to enforce. These rules are posted in the lower and upper Wauneita rooms, in the women's room in the Medical Building and in Pembina Hall. The woman student who violates these rules is sent one warning and if she fails to heed that warning she is fined by the committee.

FRED GLOVER

DOUG FLORENDINE

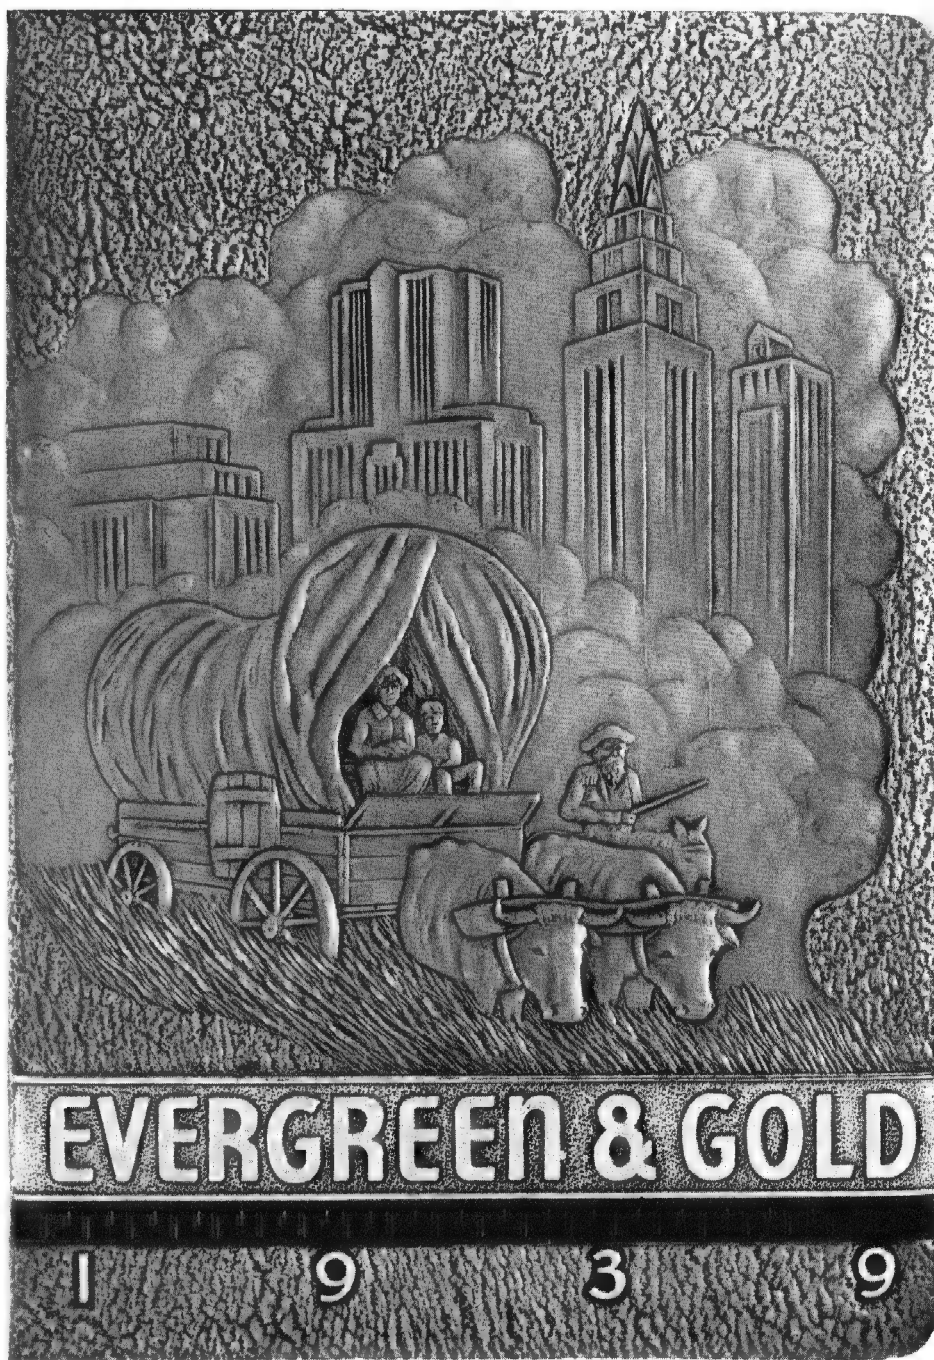

JEAN COGSWELL

The Constitutional Enforcement Committee

THIS body became existent on the Campus as a part of the Student Administration with the passing of the "Enforcement Act" in the Spring of 1934.

As its name denotes, its primary purpose is the enforcement of the Constitution. To this end it has the power to levy fines up to \$10.00 or to bar students from Campus activities and offices. A student who feels he has been unjustly dealt with has the right to appeal the decision to the Committee on Student Affairs.

Though its operation is fundamentally judicial, that responsibility is frequently relaxed to an advisory capacity in an effort to remove friction, promote harmony between students and student administration and generally operate for the welfare and good government of the Students' Union.

THE YEAR BOOK

ONCE more Evergreen and Gold, in a style befitting its nineteenth year of existence, is presented to the Students of the University of Alberta. Although the motif and the reproductions are changed, yet its identity and the purpose for which it was created remain the same. It is still Evergreen and Gold, the Year Book of the University, it still serves to record in permanent form the achievements and activities of the Students.

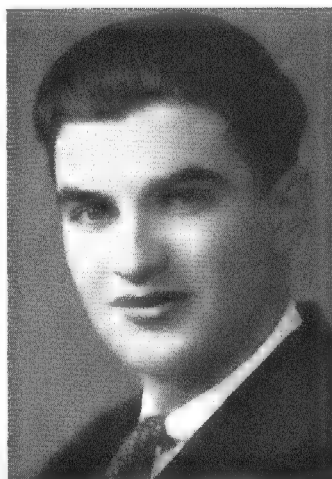

Following, as it does, a long line of Year Books which have been acclaimed on this continent as well as abroad, this volume has to maintain a standard and carry on a reputation that were not easily gained. If it does this, then the work which was expended in producing it, was not in vain.

What will happen to this book is a matter of conjecture. On its first arrival on the Campus it will probably be sought after eagerly. People will want to examine it like children do with a new toy. In a week it will almost have been forgotten to lie perhaps for years in some secluded corner of a bookcase. Then in the distant future it will be taken up and read and read again. Then, and only then, will its true worth be appreciated.

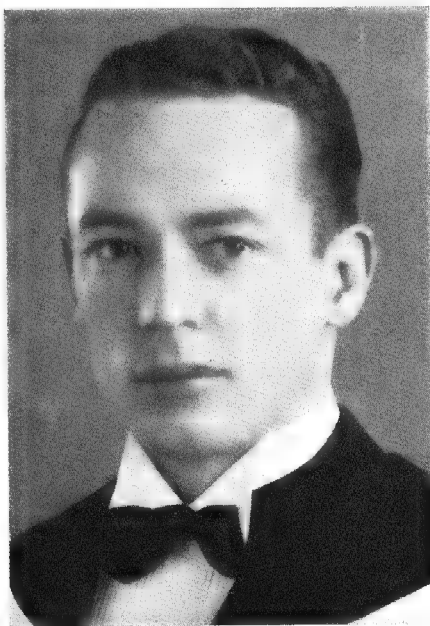

People do not study for an examination just written, but later perhaps, they have need of the information in their text books to refresh an uncertain memory. And so it is with this book. Its real purpose will not have been achieved until it is read with pleasure in years to come, to bring back the events and friends of undergraduate life which now, fresh in the minds of all, are depicted in this volume of Evergreen and Gold.

THE GATEWAY

THE Gateway's twenty-ninth year of publication has been one of the most successful in its history. More students read the Gateway than ever before and more people throughout the Province were interested enough to subscribe to it. Its influence among the students and with the general public has increased and its position as a leading undergraduate newspaper maintained.

The Gateway's news policy has been both ambitious and enterprising. Every campus activity was reflected in its pages and all happenings on other Canadian campuses of interest to Alberta students were covered by the mail dispatches and telegraph news of the Canadian University Press. An endeavor was made throughout the year to increase the space devoted to news of intellectual movements among Canadian undergraduates and to raise the general tone of the paper. Room was always made for literary efforts submitted by the undergraduates at large, although much

of the small amount of prose and poetry received was not worth the printing. More cuts appeared in the Gateway than ever before—evidence both of a trend in college journalism and of the financial prosperity of the paper. Size of type and style of front-page construction were standardized this year, giving the Gateway a familiar face to its readers.

Due, possibly, to its outspoken editorial policy, the Gateway achieved the reputation of being something of a leftist newspaper. This caused the office to be besieged by agonized Spanish Republicans and aroused much sarcasm among the French-Canadian college newspapers. Its policy throughout the year, however, was one of critical and generally constructive interest in campus and world affairs. The staff may congratulate themselves upon having produced an adult college newspaper.

It has been a long struggle from the small quarterly magazine of 1910 to the present semi-weekly, seven-column, full-sized newspaper running to as much as twelve pages. The Gateway has grown to maturity with the University and may look with confidence to the future.

Highlights of the year:

Special Sports' Issue on green paper with full page of cuts . . . Humorous Students' Union Building Issue—in vain? . . . tabloid headlines and smoking editorials on the Junior Prom "crisis" . . . the enlarged Christmas Issue with the pretty girl done in color on the front page . . . the novel single-sheet extra on the Union elections . . . the regular features such as "Carlson's Column," "Capital Close-Up," "Curds and Whey," "The Spectucker," and "Entre Nous;" . . . the deep sigh of mixed relief and regret heaved by the staff as the last paper went to press . . . the very successful Gateway party.

The Students' Handbook

AS a result of the new policy adopted by the Students' Council with respect to the Handbook, that informative little volume underwent a rather surprising transformation.

Advertising was eliminated entirely; much superfluous material was cut out; and all write-ups were condensed. The order of treatment was completely changed, the material being rearranged into a more natural classification which was comprehensively yet concisely indexed. The result was the 1938-39 streamlined edition.

The Handbook is prepared to enable students to become better acquainted with the University of Alberta, and in particular with the organization of their Student Government. Publications, sports, entertainment, and in general all extra-curricular activities are dealt with. For the Freshman it serves as a brief introduction to our mode of life; for others it provides a handy reference on an infinite variety of topics.

The purpose of the Handbook is to give a clear and balanced picture of the various phases of campus life. Yet it is not a mere catalogue of names and events. Into it has been instilled something of the spirit and traditions of our "Alberta."

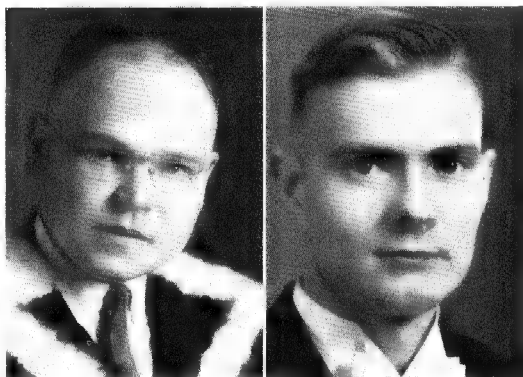

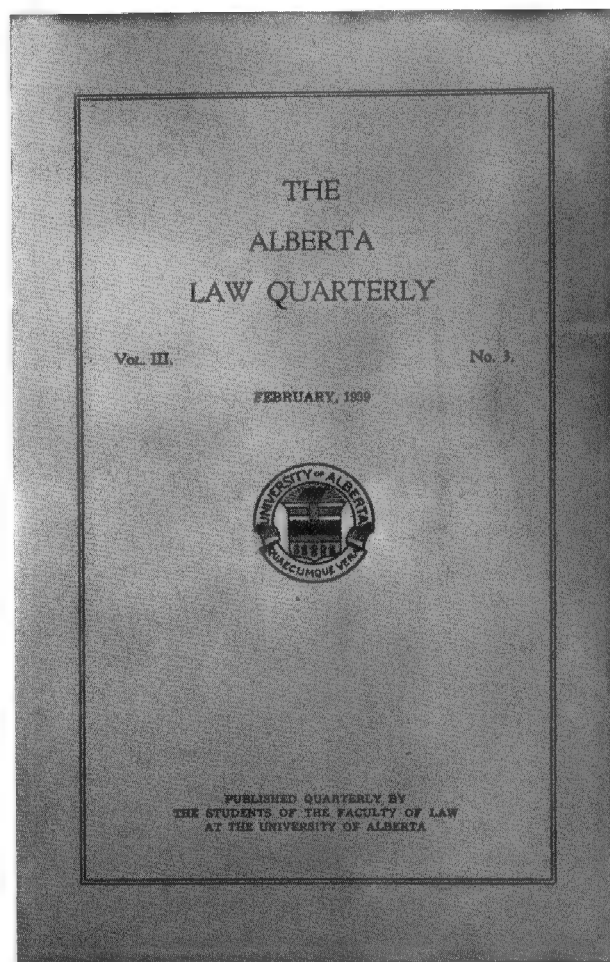

KEN MCKENZIE
Director

The Alberta Law Quarterly

THE Alberta Law Quarterly, now completing its fifth year of publication, is continuing to gain recognition among professional circles as a valuable legal periodical. It still represents the only effort of its kind in Canada among law students of any university. With the continued support of contributors and advertisers the committee reports an enlarged subscription and numerous exchange arrangements with other educational institutions. Its efforts to afford a link between student and professional circles has been evidenced by its publication of minutes of the Alberta Law Society, as well as of contributions on legal subjects by practising solicitors.

Those responsible for its publication will be indeed gratified if it succeeds in achieving, though in a small degree, its commendable purpose of promoting study and investigation, among students, on topics of legal concern and of offering some worthy contribution to legal thought.

LITERARY ACTIVITIES, 1938-39

MORE students took part in Literary activities during the current season than in any other single branch of the Students' Union.

Special commendation must go this year to Sandy Patterson and the members of the Philharmonic Society for successfully carrying through an epochal innovation by taking their production of the popular Gilbert and Sullivan opera, "The Yeomen of the Guard" to the City of Calgary. This experiment met with universal support in the Southern City, the company playing three performances before capacity audiences. The success of the venture was largely due to the excellent organization work of Philharmonic Executive and the brilliant effort of Mr. Atha Andrew and his company in staging a musical production of the highest calibre.

The Debating Society, under Lorne Ingle, succeeded this year in breaking the long list of Alberta defeats by winning the Inter-Varsity debate against the University of British Columbia at Vancouver.

Edith Spencer led the Dramatic Society through a very active season, climaxed by an outstanding performance of the clever Oscar Wilde play, "The Importance of Being Earnest." The play under the capable direction of Mr. Ronald Mitchell was the last of that genial gentleman's productions to appear on the campus, and wrote finis to his short but very fruitful term as the Society's first dramatic director.

The Political Science Club did excellent work during the past year, particularly in connection with the Canadian Scholarships campaign.

All in all, 1938-39 was a banner year for the Literary Society and most of the credit must go to the executives of the various clubs, whose spirit of enthusiastic co-operation made the work of the Literary Society officers on the Students' Council a distinct pleasure.

The Political Science Club

THIS club for the past year has had a two-fold purpose: (1) to stimulate thought and discussion on all matters of public interest, and (2) to become a focus of action for worth-while student movements.

The topics of the speakers during the year ranged from, "Canada's Foreign Policy" to "The Spanish Situation."

We believe we have made some headway in the realization of our second object. The club sponsored a petition requesting the Board of Governors to allow political clubs on the campus. It also co-operated with the National Student Assembly in promoting the cause of national scholarships.

The increased activity of the club was made possible largely by allowing four members, rather than two, on the executive.

THE DEBATING SOCIETY

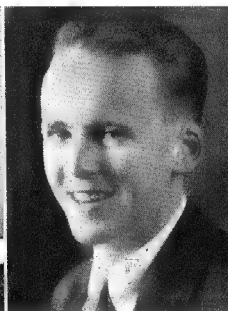

THE executive of the Debating Society this season was comprised of Lorne Ingle, as President; Ed. Lewis, as Secretary; Morris Bey, Joe Dvarkin, Ernie Shortliffe, and H. J. Bishop. In addition to the members of the debating executive, Miss Janet MacLennan, Vice-President of the Students' Union, worked hard arranging for visiting debaters' entertainment.

A feature of the progress of the society in 1938-39 was the introduction of "Organized Bull Sessions," informal forums, designed to encourage students to participate in debating, speaking, and discussion.

While the activities of the Debating Society were not so spectacular as they have been in some other years, more opportunities were provided for student participation, and more students took advantage of those opportunities, than has been the case for several years.

The Australian Debate

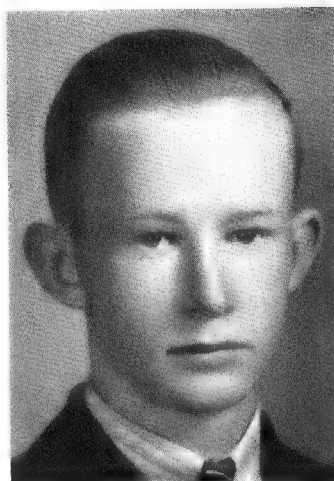

SPONSORED by the N.F.C.U.S. a debating team, composed of Mr. Fred Thonemann, of Sydney, and Mr. Hugh Robson, of Melbourne, visited Alberta on October 14th. They met an Alberta team, Burt Ayre and Morris Shumiatcher, in a debate on the topic: "Resolved that man is master of his fate." Australia, upholding the affirmative side, won a close decision. Skilful and witty speeches, on the part of both teams, delighted a capacity audience in Convocation Hall. The debate was held under the patronage of His Honor the Lieutenant-Governor, and the chairman was Dr. Kerr.

BRUCE MACDONALD
MORRIS SHUMIATCHER

The Inter-Varsity Debate

ALBERTA, after several unsuccessful attempts, this year broke into the win column in Inter-Varsity Debating, when Bruce MacDonald and Morris Shumiatcher defeated a University of British Columbia team at Vancouver. Another Alberta team, Delmer Oviatt and Jack Brennagh, lost a close decision here in one of the finest debates heard in Convocation Hall in a long time. Subject of both debates was: "Resolved that Germany's lost colonies should be returned."

KEN CROCKETT
President

The Public Speaking Club

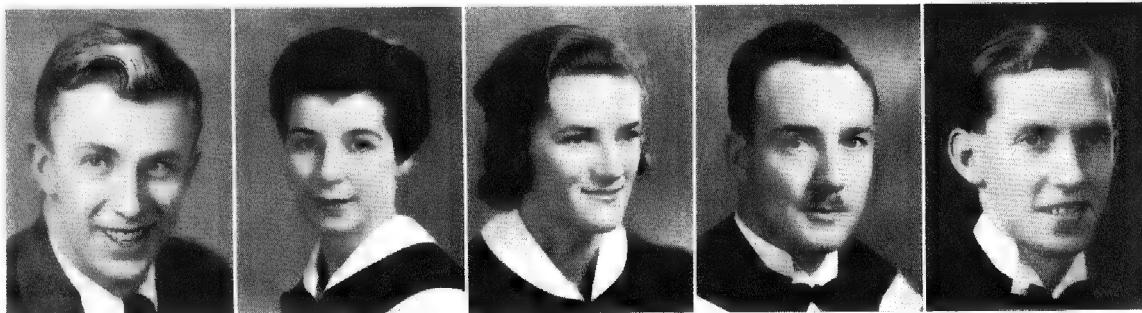

The purpose of the Public Speaking Club is to educate its members in the art of public speaking. Furthermore, the speaker is taught to think on his feet—a most important thing in this modern business world. The Club also exists as a grounding school for future debaters.

To further these ends the Public Speaking Club endeavors to give its members a thorough and practical training along these lines. Numerous impromptu speeches, prepared speeches, toasts, after dinner speeches, and debates were delivered. The highlight of the whole season was the mock trial, complete with costumes and setting.

DRAMATIC SOCIETY

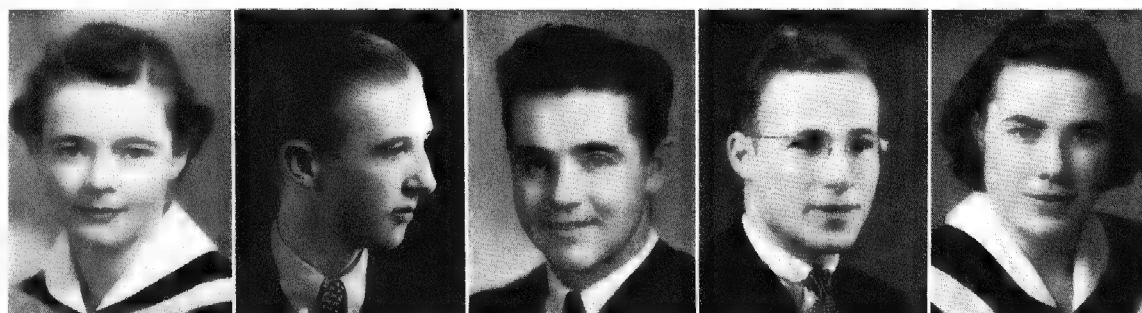

FOLLOWING up its success of last year the Dramatic Club has completed another successful term. Once more under the skilful guidance of Mr. Mitchell a new high in the quality of entertainment was achieved.

Activities commenced with the customary Inter-year Competition. The Fresh Class presented a pleasing comedy "The Romancers," showing promise of good talent. The Soph Class struck a serious note with "Trifles," winning the shield, and Beth Rankin taking the award for best actress. The Juniors presented "And So To Press," another comedy. The Senior Class concluded with a fast-moving Mexican folk comedy, "Sunday Costs Five Pesos." Colin Ross was adjudged best actor for his role in the Senior Play.

"Helena's Husband" was entered in the sub-regional festival and was judged the best English play. The performance in the Provincial Festival was highly praised by the adjudicator but it failed to achieve the success of last year's entry.

A double feature was presented for the annual Spring performance. "The Deluge," a medieval religious play, was something new to University audiences. In very effective stylized setting, "The Importance of Being Earnest" was a pleasing performance and received enthusiastic ovations.

To Mr. Mitchell go our heartfelt thanks and we hope we may be worthy of his untiring efforts in promoting the success of the Dramatic Society.

THE PHILHARMONIC SOCIETY

THE Philharmonic Society broke all records this year with the production of Gilbert and Sullivan's "The Yeomen of the Guard." This proved to be the most difficult comic opera so far attempted, but by starting rehearsals early in October, and carrying them through conscientiously until the time of the performances, the cast made it the most successful ever to be produced here. So much so, that four performances had to be given in Convocation Hall to permit everyone, who desired, to see it.

The week following the performances here, the entire troupe went to Calgary and at Western Canada High School Auditorium presented the show three times before large and very appreciative audiences.

The executive worked hard and co-operated to the fullest extent in making this year's show the success it was. Atha Paul Andrews, as Conductor, should be especially commended for his fine work with the orchestra, and for giving polish to the whole performance in the last few weeks of rehearsals. Mr. Dalkin, as Dramatic Director, excelled himself, and Mr. Kevan, the Chorus Director, produced the best chorus yet to be heard on the campus.

The Spartan dictator (a librarian) rouses the people to war with Troy while Menelaus sits disconsolately.

"The Yeomen of the Guard"

The Tower of London, this sunny morning, is the scene of a complicated plot. Colonel Fairfax is to be beheaded as a sorcerer due to the jealousy of a relative, who wishes to inherit his estate. His two friends, Sergeant Meryll and his daughter, Phoebe, plan his escape. Meryll's son Leonard (George Lambert) who has arrived from Windsor, unseen, agrees to remain hidden and allow Fairfax to take his place as a Yeomen of the Guard.

In the meantime Fairfax has requested the Lieutenant of the Tower to find him a bride, for one hour, so that his greedy relative would not become his heir.

The Lieutenant's (Ian Docherty) task is lightened when two strolling singers, Jack Point and Elsie Maynard, arrive at Tower Green. He presents his offer to Elsie (Margaret Hutton) who finally consents much against the wishes of Jack Point (Mr. W. G. Stillman).

Elsie, who is blindfolded, is married to Fairfax in his cell. Shortly afterwards Phoebe wheedles the keys to his cell, from the dull witted chief-jailor, Wilfred. Sergeant Meryll releases Fairfax just in time for him to appear as Leonard Meryll at the parade of the Yeomen for the execution. The villagers throng to witness the proceedings. Phoebe (Marion Williams) and Sergeant Meryll (Bert Swann) look on interestedly. There is great consternation when it is learned that the prisoner has escaped and 1,000 crowns are offered for his capture dead or alive.

Elsie is now married to someone she has never seen. Jack Point is distressed since Elsie may no longer be his, and Fairfax is free, yet married to an unknown bride. Fairfax (James Saks) learns from Dame Carruthers (Marion Nancekivell) and her niece (Elfreda Rear) that Elsie is his wife, and he sets out to test her principles, as he has fallen in love with her.

Jack Point persuades Wilfred (Jack Bradley) to swear that he shot Fairfax as he was swimming across the river. They describe, in blood-curdling terms the death of Fairfax, to the crowd who acclaim Wilfred for his bravery.

The real Leonard arrives bearing the news that Fairfax is reprieved, just at the time of the wedding of Elsie and the supposed Leonard, since Fairfax is to all intents and purposes dead. Fairfax appears in his own clothes and demands his bride. Elsie is broken-hearted but knows where duty lies and obeys.

Looking up she discovers that Fairfax and Leonard are the same person, and happiness reigns supreme. Jack Point alone is unhappy, and collapses—a broken-hearted jester.

THE AGRICULTURE CLUB

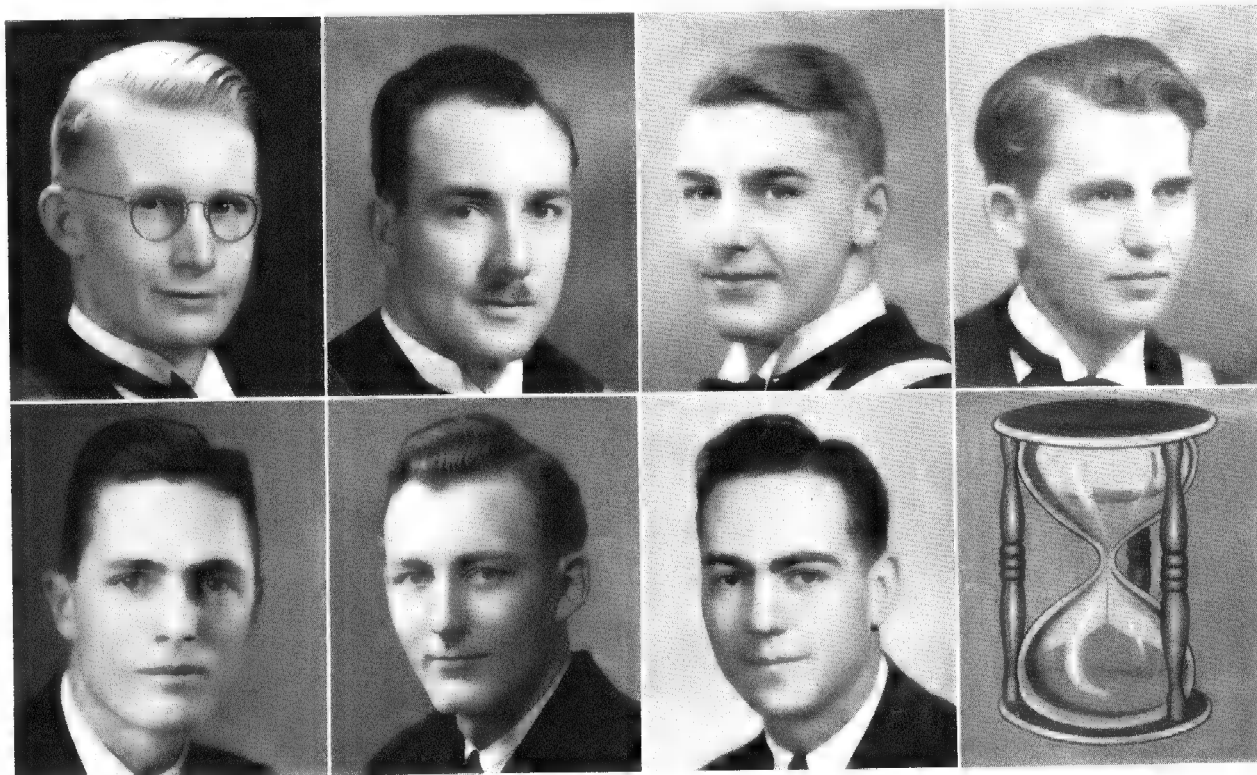

FOR the Ag. Club, 1938-39 has been a Banner Year.

The largest Freshman Class in the history of our Faculty was welcomed at an introduction supper early in the Fall.

During the year social activities included informal dances, and lunches. Had it not been for an untimely scarlet fever epidemic, the Ag. Banquet, we feel, would have been one of the best yet.

In the past two years the Agriculture Club has done much for Varsity sports and now stands high in soccer, rugby, basketball, hockey, boxing and wrestling. Members of the Club also won parts in the Inter-year and Spring plays and the "Yeomen of the Guard," and battled valiantly if not victoriously in Debating.

We feel that this has been the best all round year since the organization of the Club.

B.Sc. NURSES CLUB

THIS year marks the second anniversary of the B.Sc. Nurses Club. Started in 1937 simultaneously with the inception of the Faculty of Nursing, the Club has continued to grow, both in numbers, and in importance in the University.

The Club was fortunate this year in having Miss Denniston as Honorary President and to her is extended our sincere appreciation for the interest which she has shown in all activities of the Club.

The Nurses as usual entered teams in inter-faculty debating and although we were not always successful nevertheless more than one opponent was humbled when met by our champions of oratory. In both the social life of the University and sports, the members of the Club have shown an active interest. It is safe to say that we have now emerged from the obscurity which necessarily attaches itself to a new club and that we are now a recognized and well-known Club on the Campus.

Le Cercle Francais

LE CERCLE FRANCAIS, un des "Clubs" les plus importants de l'université vient de clore une série de réunions très réussies. Ces séances, qui eurent lieu dans la grande salle d'Athabasca, réunissaient plus de cent étudiants. Le programme de cette année comprit des causeries, des "sketches" improvisés par les étudiants du cercle, et des chansons françaises. La verve inimitable de Dr. Sonet donna aux réunions tout l'entrain qu'il fallait pour rendre ces réunions inoubliables.

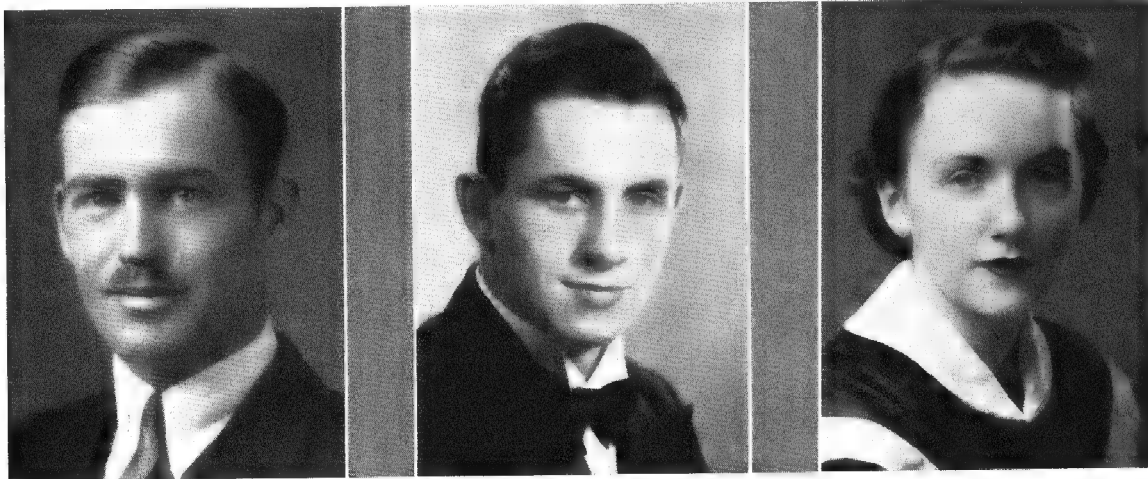

De temps en temps plusieurs membres du "staff" de l'université nous honorent par assister à ces séances.

The Commerce Club

DURING the term a very earnest endeavor has been made to define and limit the activities of the Club. Moreover, there was an attempt made to equate executive enthusiasm with the money income of the Club members.

Believing, then, that the purpose of the Club was educational and constructive rather than social, the Executive went ahead. At regular intervals throughout the winter Luncheon Meetings—a now famous tradition of the Club—were held. Speakers from Edmonton were heard on widely divergent topics and the series was a pronounced success. Late in December an Industrial Tour was conducted. The final event of the year—our annual Graduating Banquet and Dance—unfortunately was cancelled due to the epidemic of Scarlet Fever.

It is felt that this year has been one of consolidation and solidification and that next year real progress will be made. To the members of the graduating class the remaining members join in wishing Good Luck, Success and the myriad of things they seek.

DENTAL CLUB

THE inauguration of a Mediarly Board and of monthly supper meetings marked the Dental Club's fourteenth year on the Alberta Campus.

The purpose of the Board is closer co-operation between student and professor. The supper meetings owed much of their success to such able speakers as Dr. Schaner, Dr. Gilchrist, Dr. Rowan, and Dr. Smith.

The Dental Club banquet held at the Corona was an outstanding success.

As in the past, the Club's participation in such activities as debating and sports has encouraged in each of us a more complete interest in the varied aspects of Campus life.

Engineering Students' Society

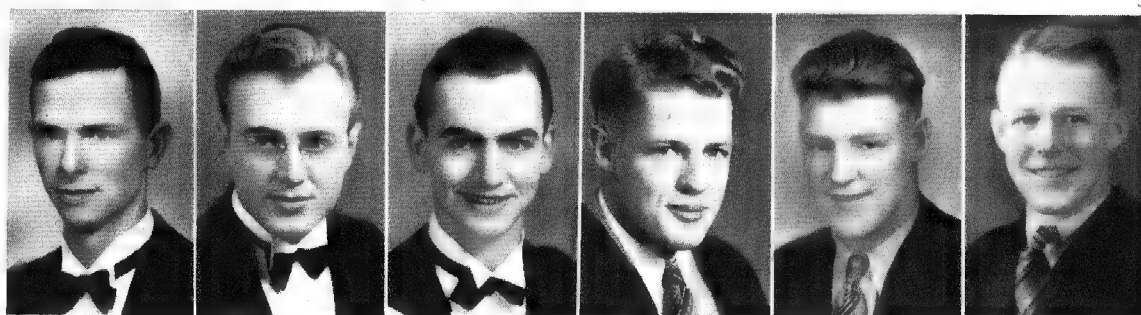

ANOTHER valuable and most enjoyable year comes to a close for members of the Engineering Students' Society.

Engineers were again in the van of Varsity sport with positions on the track, rugby and hockey teams. In interfac' competition they carried away the rugby and "A" league hockey championships and the Kerr trophy.

The Hugill Trophy, emblematic of interfaculty debating superiority, was won by the Engineers' Team, while the number of Engineers holding positions on class executives and in extra-curricular clubs certainly showed the interest taken in campus affairs by members of the Society.

Engineers turned out "en masse" for the banquet and smokers. The first Annual Ball was a tremendous success, and judging by the enthusiasm shown both prior to and following the event, it should become the social highlight of the Varsity year for Engineers.

Many thanks are due to Mr. Cornish and members of the staff of Applied Science for their invaluable assistance during the past year.

The Law Club

MEMBERS of the Law Club again distinguished themselves in a wide field of University life. The Students' Council, the Literary Society, Dramatics, Debating, Political Science and all branches of sport have been enriched by the efforts of Law Students. The Philharmonic Society has a special interest for the club, as many of our members took part in its activities, and the annual operetta was again capably conducted by one of our members.

Such varied interests leave but little time for functions belonging strictly to the club. However luncheons featuring guest speakers, and an enjoyable informal party in "Tuck" before Christmas were well attended. Highlights of the year were the "Undergrad" Dance, sponsored by our club, and the annual banquet, where our graduates were launched into their profession in the presence of the leading members of the Bench and of the Bar.

Our appreciation goes to Dean Weir for his constant interest, in spite of a double burden of responsibilities imposed by the absence of Professor M. M. MacIntyre on sabbatical leave.

Household Economics Club

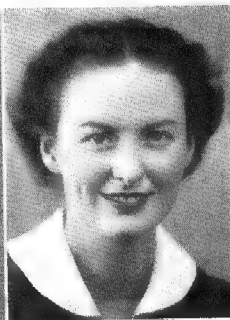

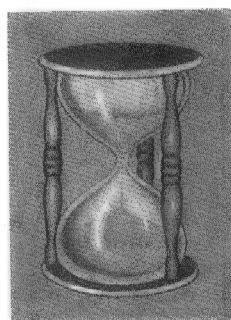

THE thirteenth year of the Household Economics Club has passed with no greater disasters than burned biscuits and dropped stitches. Much has been accomplished.

Newcomers and upperclassmen alike have made new friends and have learned to work together and in harmony with the faculty.

The Freshettes made their debut at a party held early in the fall in the auditorium of St. Joseph's College, and enjoyed their brief hour of glory. Subsequent gatherings were addressed by Dr. Pett of the Department of Biochemistry, and by Miss Muriel Cameron of the Consumer and Buyer Bureau, Ottawa.

Almost every member of the Department attended the Annual Formal at the Masonic Temple. Mrs. Wardlaw Porteus gave an account of her work in the Youth Training Centre.

We are grateful to Mrs. Strickland for the interest she has shown in her capacity of Honorary President, and to members of the staff for their co-operation.

The Medical Club

THE support given to their club by medical students this year has been particularly gratifying. We were fortunate, too, in securing Dr. D. G. Revell, recently retired head of the Department of Anatomy, as Honorary President.

The Annual Banquet was for the first time held during the fall term, a successful innovation which may well be made a permanent practice.

The Med. Ball, if somewhat more informal than in previous years, was certainly no less enjoyed, while the monthly meetings were enlivened through the efforts of the class executives and a judicious choice of guest speakers.

With more students registering in Medicine each year the Club is growing steadily. It is to be hoped that the scope of its activities may widen in proportion and that it may become a source of even greater benefit and enjoyment to its members.

The Pharmacy Club

ENROLLMENT in the School of Pharmacy this year hit a new high, making possible the largest and best Pharmacy Club since its inception. The Graduating Class this year is the largest ever to leave this University to take up the practice of Pharmacy in Secundem Artem.

The monthly Supper Meetings of the Club constituted, in a large part, our social activities. Each meeting was made very profitable by having a guest speaker, the highlight being a lecture on Chinese Drugs by Colonel F. A. Stewart Dunn. The Edmonton Alumnus Association was instrumental in providing a high class of entertainment in the way of banquets and dances. A very popular source of relaxation from burdensome books was the Edmonton Retail Druggists' Banquets and Dances, held intermittently throughout the year.

Our Interfac Debaters were as usual defeated by the Nurses. However we made up for our loss in other fields of competition. Maxine Thorburn won the Inter-varsity Ladies' Singles Tennis Tournament; Nellie Thrasher was prominent in Track; Jack Stokes gave us something to be proud of in his high rating in Rugby and Basketball. In Executive we were well represented by Howard Young, who was elected President of the Freshman Class.

The best Annual Banquet and Dance, ever to be held, at the Macdonald in the Spring—brought to a close the activities of (we modestly admit) the optimum in Pharmacy Clubs.

Student's Christian Movement

THE aim of the Student Christian Movement to present a balanced program of worship, study and fun has again been accomplished through Sunday Services, Study Groups, Fireside Gatherings and Parties.

The unavoidable absence of a local secretary has curtailed certain activities of the movement. However, the executive has presented a program that would give all interested students an opportunity to meet and discuss vital problems of the day.

The closing event of the year, and the impetus for next term, will be Spring Camp, held immediately after the close of examinations.

Mining and Geological Society

THE Mining and Geological Society had one of its best years since its inception in 1914, with a membership larger than ever before. The Canadian Institute of Mining and Metallurgy (Northern Alberta Branch) and the Northwest Prospectors' Association most kindly permitted members to attend important banquets and meetings throughout the year. The members also co-operated to the full with the Engineering Students' Society to make the Engineers' Ball a success.

One of the highlights of the year was a visit by E. A. Collins and E. J. Carlyle, president and general secretary of the Canadian Institute of Mining and Metallurgy, Montreal, in November.

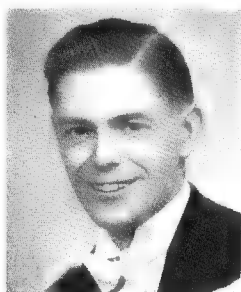

PROF. LILGE?
Hon. President
DON MacGREGOR
Executive

Excellent papers were given by a number of guest speakers. The papers represented were: "Archaeological Survey," by Dr. Bliss, University of New Mexico; "Canadian Saline Deposits," by L. H. Cole, Ottawa; "The Canadian Oil Industry," by Frank Blue, Edmonton; "Types of Motors for Mines and Mills," by Prof. W. E. Cornish, University of Alberta.

Student papers of high standard were presented during the year and these talks covered: "Geology of the Yellowknife Area," by Don Macgregor; "Geological Survey Methods," by B. H. Corey; "Operations of the C.M. and S. at Kimberly, B.C.," by J. S. Carter; "Operations at Polaris Taku, B.C.," by Russell Trupchak; and "Mining and Milling at Great Bear Lake," by Norman Grant. An excellent movie entitled "Mining in South Africa," added variety.

The Society wishes to thank Mr. E. O. Lilge, honorary president, and other members of the faculty for very kind suggestions and valuable assistance throughout the year.

BILL McCALLUM
President

The Osler Club

SID EVANS
Secretary

COMPLETING a session heretofore unparalleled in activity, general interest and enthusiasm, the Osler Club looks back with pride upon a year successfully devoted to the interests of the Medical Forum.

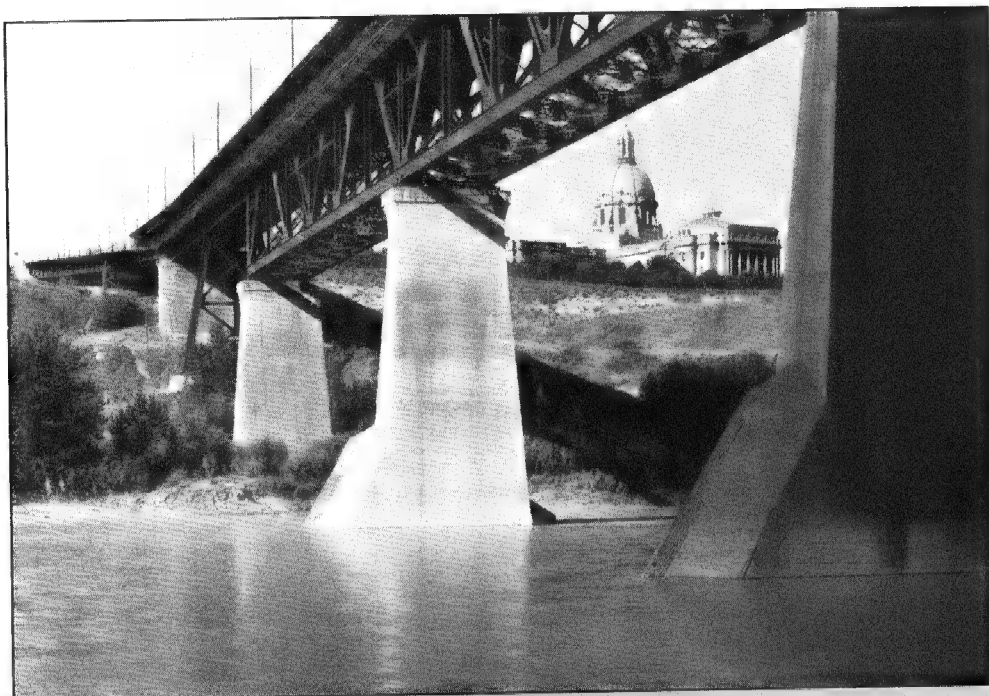

Founded as a tribute to the memory of the beloved physician and teacher, Sir William Osler, this body is formed annually by the members of the Graduating Class in Medicine. It seeks to perpetuate in essence the practical idealism of the original fire-side group by providing a link between the theoretical classroom on the one hand and the medical clinic on the other. Here student, teacher and practitioner may meet on common ground to analyse and discuss the problems confronting the profession.

The Club, meeting bimonthly, discussed many topics of medical interest, including recent advances in medicine, short historical reviews and case histories related to subjects at hand.

For their loyal support, the Osler Club wishes to extend its sincerest appreciation to Dr. Jamieson, Dr. Scott, Dr. Watts, Dr. Conn, Dr. Hamilton and Dr. Hurlburt.

Our deepest gratitude is extended to Dr. Orre and Dr. Cantor whose guidance enabled us to enjoy the benefits of this forum and whose efforts have lent meaning to our aims and enriched our ideals for medical progress.

JAKE JAMIESON
Athletic Director

ATHLETIC DIRECTOR

ALTHOUGH Mr. Jake Jamieson has filled the position of Athletic Director for only two years, he has convincingly shown that his appointment was a wise one and that the creation of that position was well justified. An active participant in almost every sport while in the East, Mr. Jamieson has for the past few years devoted his time and energies to coaching. His knowledge of sports, gained from experience, and his coaching ability have combined to make him a valuable asset on the Campus. His friendly attitude toward all students and the manner in which he performs his duties have made him a popular and respected figure in the University.

We wish the best of luck to Jake for the coming year and hope that the benefit of his association with us will long continue.

FRED McKINNON

FRED PRITCHARD

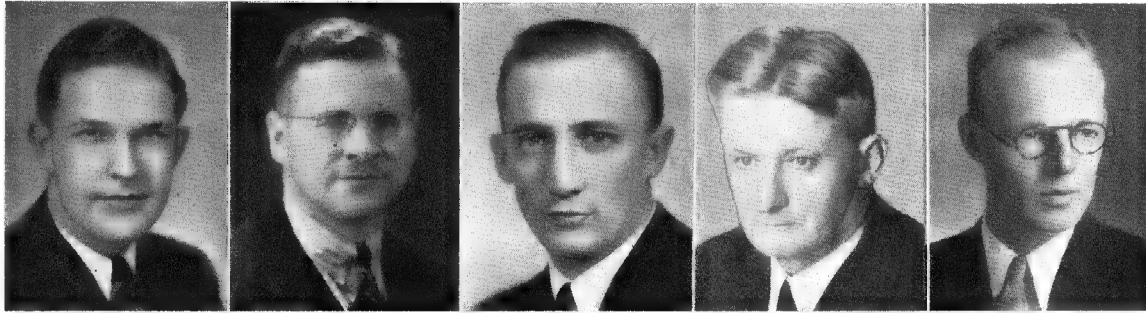

ROOTERS' CLUB

AS in previous years, it has been the task of the Rooters' Club to organize and lead the cheering at all Varsity athletic functions.

During Freshman Week, the newcomers to the University were taught the songs and yells at a bonfire held at the grid. Before the first rugby game, a rousing pep rally was held in Convocation Hall.

Largely through the efforts of "Chick" Thorssen, the irrepressible and unruly exuberance of the engineers has at last been harnessed and directed constructively. With the E.S.S. as a nucleus, Varsity possesses the most enthusiastic cheering section in years and student spirit has markedly increased.

Let's go Alberta

Executive

Men's Athletic Committee

THE year of 1938-39 has been the first year of the Athletic Board functioning under the new constitution prepared for it last year. It has fulfilled its expectations as to workability, as this year there has been need of only two additional amendments.

At the same time the addition of the three faculty members together with the Athletic Director as corresponding secretary have added experience and knowledge to the Board meeting of the Athletic Association. As a result this year the Board as a whole has taken a careful interest in and more actual control over money expenditure than it has before. It is hoped that this control will be continually extended within the confines of its jurisdiction.

The Athletic Association has had pleasure this year to acknowledge three Men's Western Canadian Intercollegiate Championship teams, namely, Track, Hockey and Tennis. As a result there has been a corresponding increase in the Major Athletic Awards. The Board wishes to acknowledge and thank all the sportsmen on the campus for their co-operation, and to wish all of them and the new Board a successful year for 1939-1940.

Women's Athletic Club

THE year 1938-39 proved to be a quiet one for women's sports on this campus; most of the teams travelling. Early in the year the Council decided to do away with women's hockey, thus leaving an extra amount of money for more popular activities. To fill this gap, an archery club was organized and judging from the enthusiasm shown during this its first year, archery will become a major women's sport.

In Intersivity competitions the women's clubs were well represented in badminton, basketball, fencing, track, swimming, and tennis. In badminton and tennis we were most successful and though we missed first place in other Intercollegiate meets we held a good second position.

Women's Track showed a turnout which was better than ever before and choice of Intercollegiate representatives from Interfac. ranks ranged over quite a wide field.

Women's Senior Basketball had two newcomers to take the places of those who graduated or left during the year. There was unfortunately a lack of competition as a proposed city league failed to materialize. An active House League was formed of six teams, with the Theta's taking the top honours. Although turnouts were poor at the beginning of the year the later games were well attended.

In closing we wish to thank the coaches for their interest and co-operation. We will miss the graduands and look forward to seeing the undergraduates again next year.

JASPER AVENUE EAST, 1890

COACH BILL BROADFOOT

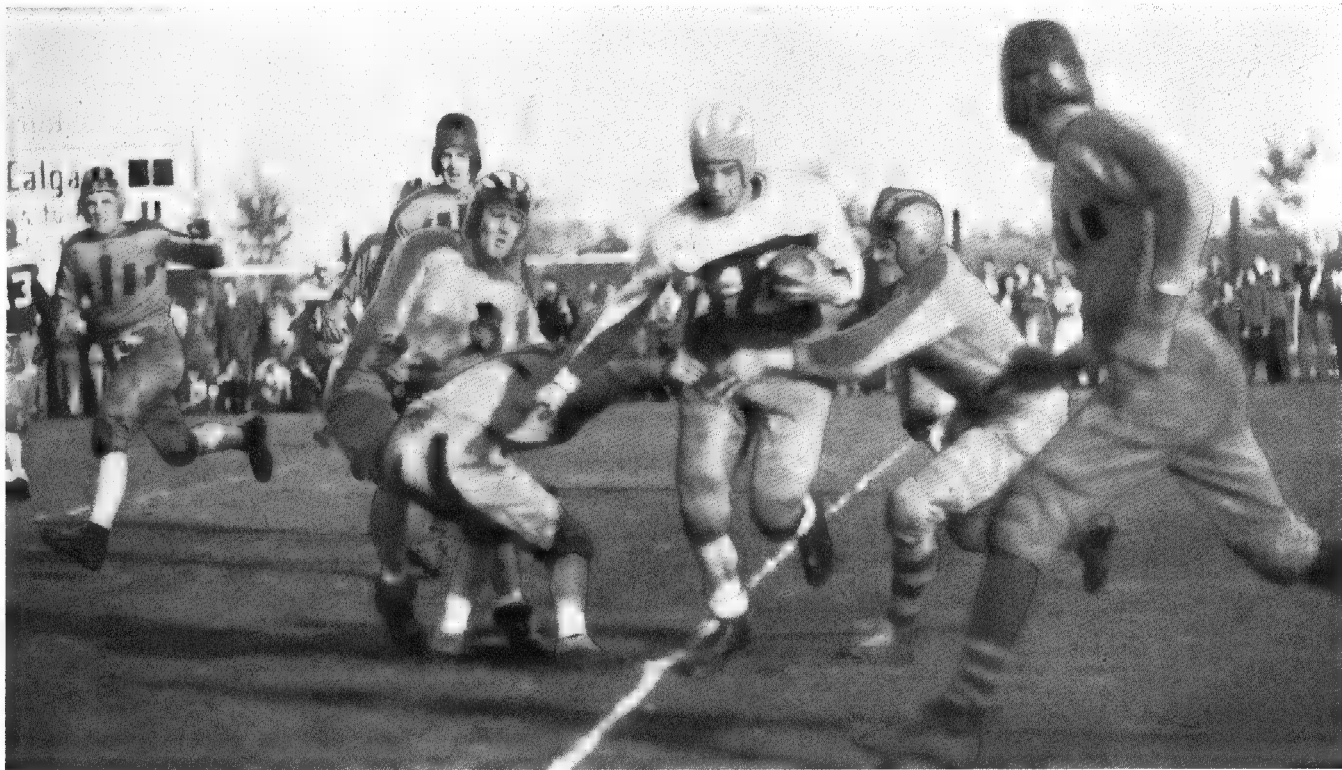

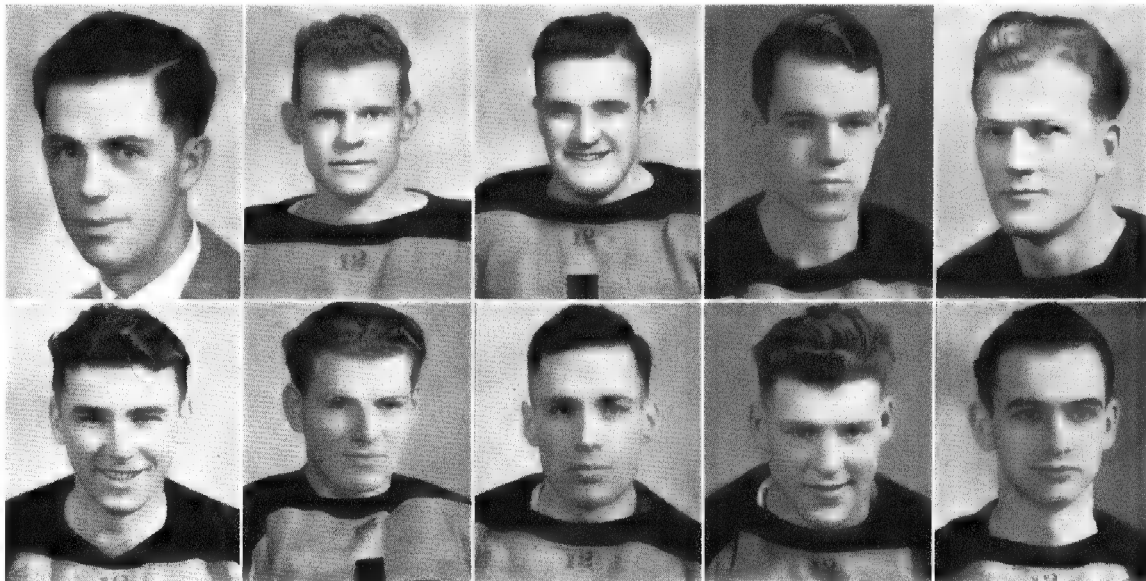

TOMMY BLADES
President

SENIOR RUGBY

AFTER a short pre-season training, W. C. Broadfoot fielded a practically new Rugby Team, as most of the previous senior players graduated last spring.

Varsity made their first appearance in an exhibition game with the Edmonton Eskimos. Despite the marked difference in class Varsity showed up well and gave good promise of being able to hold their own in the Inter-collegiate league.

KEN CLARKE, Manager
JACK NEILSON

TOM BLADES
DAVE MACKAY

LLOYD WILSON
JOHN MACLENNAN

JACK MACMILLAN
ED. LANGSTON

JOHN JAMESON
DON WILSON

The Bears played 8 games in all, against U. of S., U.B.C., and Edmonton Esks., besides exhibition games with Wetaskiwin and Garneau High School.

Although Alberta failed to place in the Inter-collegiate League the team showed a marked improvement during the season, and should be more successful next fall.

The team wishes to express its thanks to Coach Broadfoot, not only for the opportunity of playing under him but for the sportsmanship he taught the team.

A brief summary of some of the games is as follows:

DON STOREY
BOB WALFORD

CAM STEER
BERT SWANN

DOUG. VAN KLEEK
BEV. MONKMAN

NORMAN McCALLUM
WALLY THORVALDSON

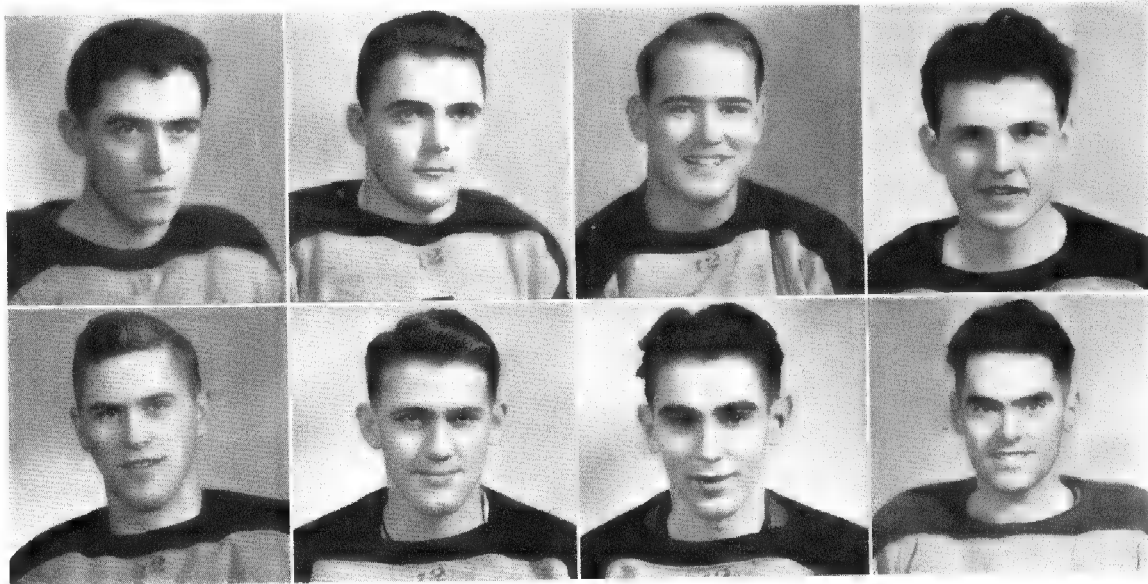

Edmonton Eskis—35; Varsity—0

Despite the difference in weight and experience Varsity displayed remarkable spirit and the score does not completely indicate the play. Johnny McLennan was injured during this game which ended his career in Varsity rugby.

U. of S.—13; U. of A.—0

The Bears got away to a good start making five first downs with Dave Mackay doing some fine line plunging for Alberta. The breaks of the game went to the Huskies who showed more consistent play.

TED O'MEARA
GEORGE STUART

DON McDONALD
JACK ELLIS

DOUG. SMITH
JACK STOKES

FRANK FITZGERALD
JIM FORBES

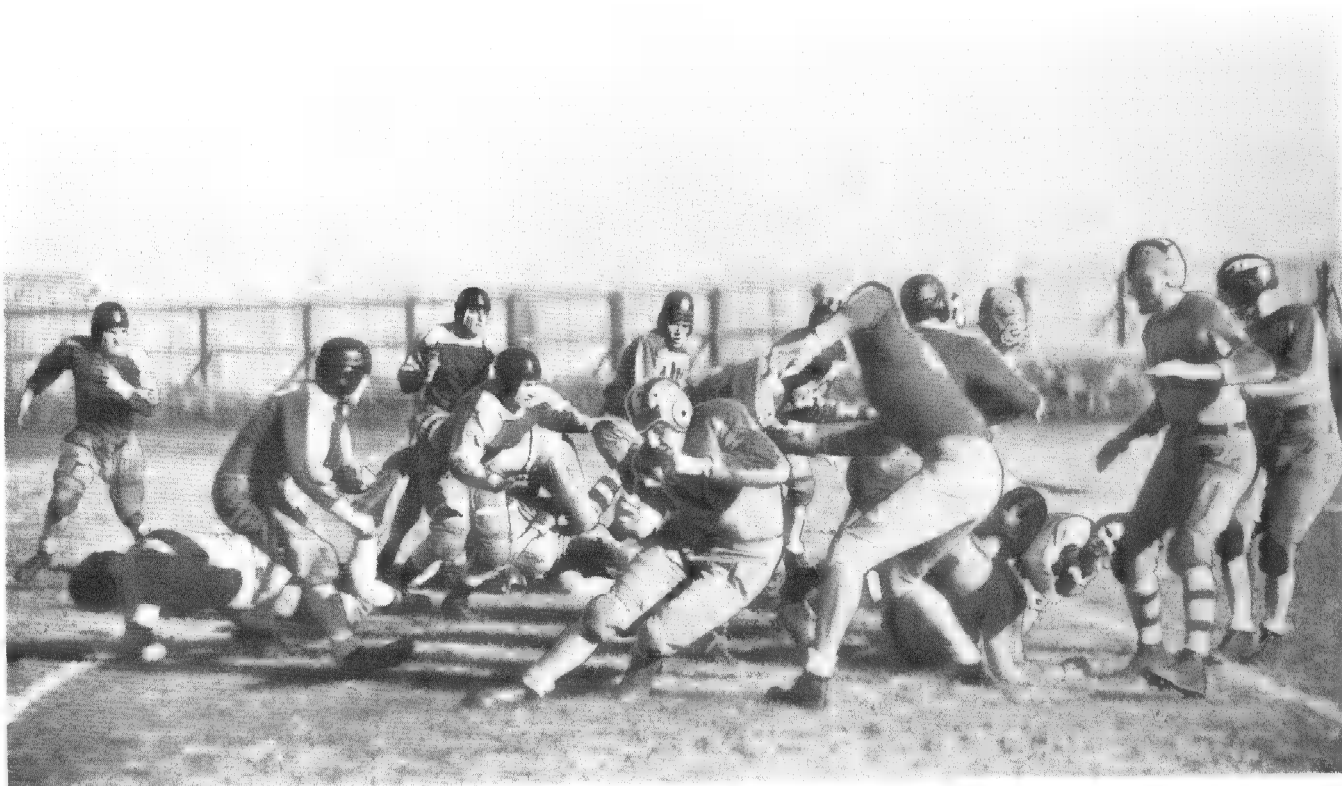

U. B.C.—40; U. of A.—11

In spite of the lop-sided score this game was interesting throughout. Stokes, MacKay and Neilson bore the brunt of the play for Alberta.

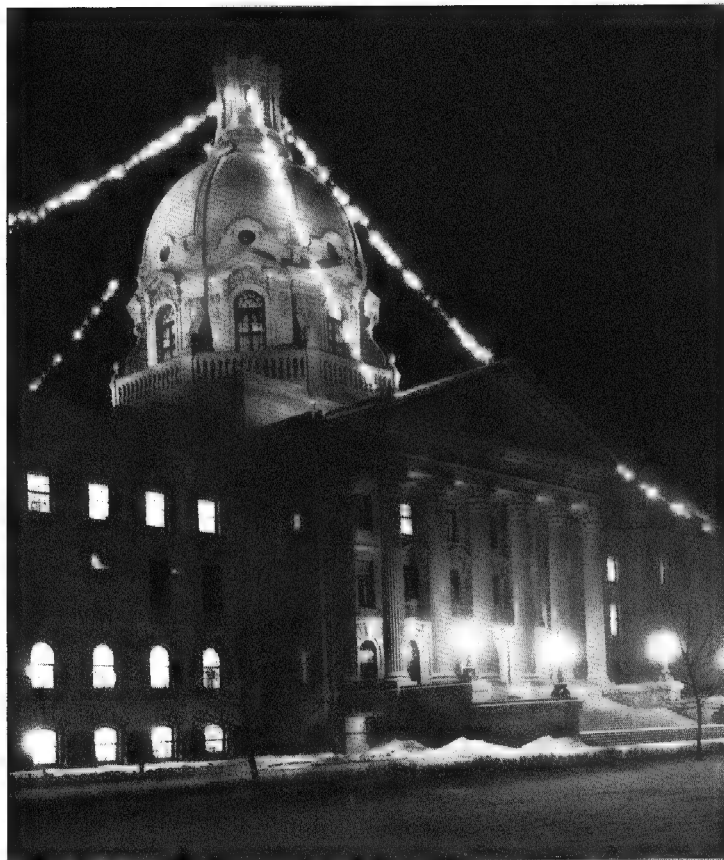

U. of S.—13; U. of A.—11

The Bears, determined to break their jinx, put up a bruising battle but failed in the dying moments of the game to even the score. McMillan and MacKay did the major scoring for Alberta.

Varsity did win a game or two—against Wetaskiwin and Garneau High.

HOCKEY

President

MEN'S SENIOR HOCKEY

SENIOR hockey has experienced another successful season on the University campus.

This year Stan Mohr has had charge of the team, and much credit is due to him and his players for retaining the Halpenny Trophy, and for advancing to the finals in the Northern Alberta Intermediate League.

THE HALPENNY TROPHY

The team was built around a nucleus of players who have participated in hockey for more than one season, players being, Dave MacKay, Bill Stark, Pat Costigan, Verne Drake, Gray McLaren, Norman Costigan, Don Stanley, and Bud Chesney, well strengthened by George Stuart, Gordon Darling, Ed Crowder, and Bill Reid of the freshman class.

MEN'S SENIOR BASKETBALL

UNDER the able coaching of "Jake" Jamieson, the team of 1938-39, although small in stature, proved to be one of the fastest and trickiest to represent Alberta in several years. Four new players, "Brick" Younie, Dave MacElroy, Bob Reikie, and Tom Pain, added new strength to the nucleus of last year's squad composed of Moscovich, Stokes, Cameron, Dobson, and Shillington. Unfortunately, Guy Morton, a veteran guard, was unable to finish the season, and was a great loss to the team.

Owing to the lateness of the Provincial playdowns the University Team decided, with much regret, to withdraw from the league. Instead, however, to further stimulate interest in Intercollegiate sports, the team travelled to Manitoba. Games were played at Saskatoon, Winnipeg, and Brandon. Alberta, after winning the first two games of a four-game home-and-home series with the University of Saskatchewan for the famed "mythical" Rugby Trophy, met defeat in their two games at Saskatoon, losing a closely contested series by a nine point margin. In Winnipeg, Alberta regained their laurels by defeating the University of Manitoba in two games, but in Brandon met with a set back. These intercolleigate games exemplified the good sportsmanship and spirit of healthy rivalry that exists and has existed in this sport.

The City League, which includes four teams, finds Varisty at the time of writing in second place, having lost one game, with much hope of coming out on top.

JAKE JAMIESON
Coach

WOMEN'S BASKETBALL

BASKETBALL for 1938-39 had very little competition. There was no city league so few games were played. The "Wasps" were defeated twice by our girls but the "Baby Grads" were twice victorious.

Another interesting game was played, the proceeds going to the Christmas Fund, between the "Profs." and the "Coeds." It was a game full of fun, both for the participants and for the audience. The girls added the feminine touch by wearing smocks and hair ribbons and the professors wore a little bit of everything from nine vests to rugby boots.

The team this year consisted of one freshette, two juniors and six seniors. The loss of these six girls will be greatly felt.

The Cecil Race Trophy, donated for Intercollegiate competition, was won by Saskatchewan in two closely contested games.

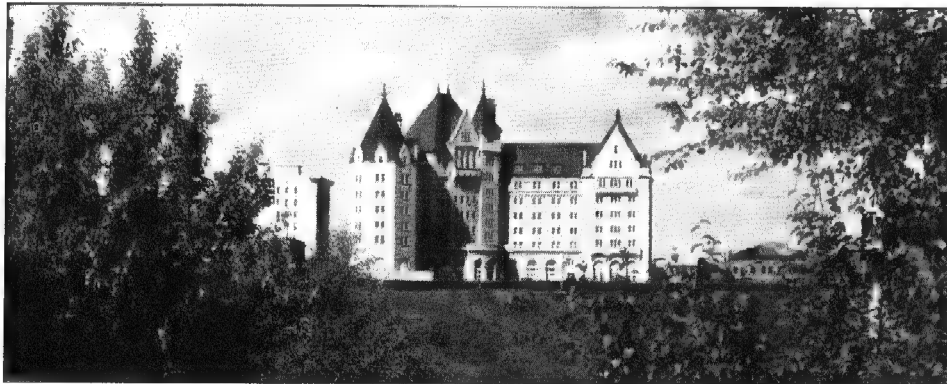

We are hoping that we can arrange a home and home series next year with Saskatchewan and also games with Manitoba to widen interest in Intercollegiate sport.

House League Basketball had a large turnout this year. The girls on the Senior team coached the six house league teams consisting of Pembina, Overtown, Iri Delta, Delta Gemma, Pi Phi and Theta.

The Thetas, coached by Ada Crowder, won the championship cup in a close final game against the Overtowners.

Next year we hope to see some of these girls on the Senior lineup.

MEN'S TRACK

The University of Alberta came into its own this year by taking the coveted Cairn's Trophy, held by Alberta only twice before. Alberta for the last three years has just missed the honours but this year the club put in the extra drive which carried them well over the top.

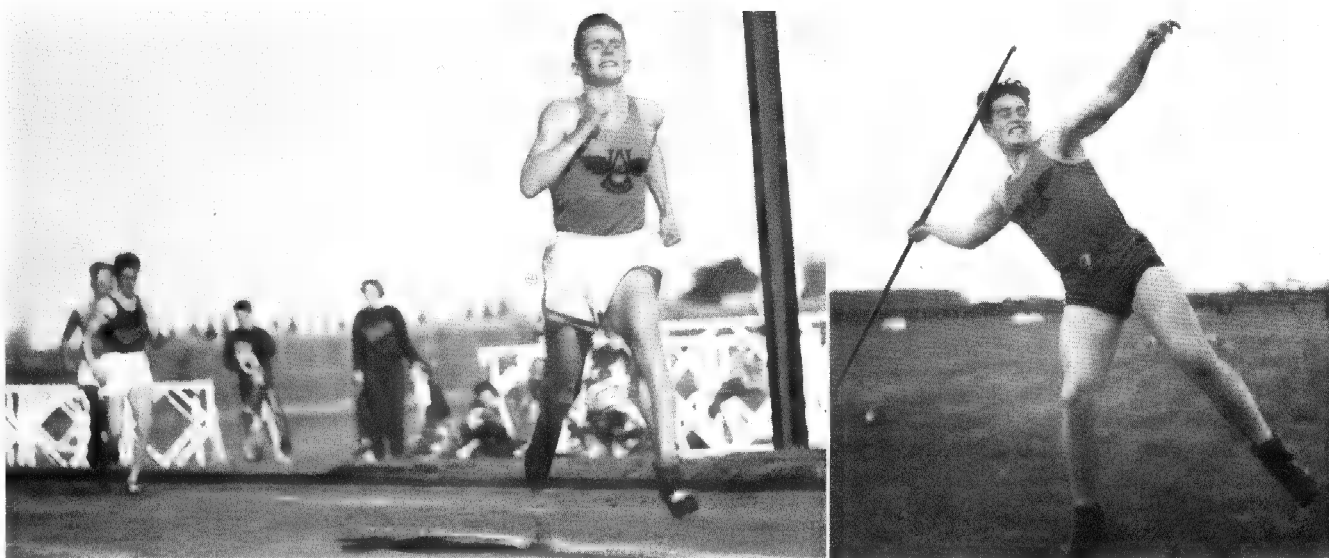

Training started on September 28th. From the first there was a spirited interest in the team. A few freshmen were added to the ranks of the old timers. These newcomers showed up very well and it is expected that they will carry on the record set by this year's team.

The Interfaculty Meet, held on Thanksgiving Day, Monday, October 10th, proved very successful. The Faculty of Arts carried off the honours of the day, with the Engineers coming second.

Arts	41 points	Medicine	6 points
Engineers	32 points	Commerce	6 points
Dentistry	17 points		

The two Dewis brothers and Ian Cook were as usual in at the top. The discus throw was won by Andy Lennox who had never thrown a discus before. Andy was unfortunately unable to make the Intercollegiate team, however, we expect great things from him in the coming years.

Favored by unusually fine weather the Intercollegiate Meet was held at the grid of the University of Alberta on Saturday, 15th of October. Ian Cook was the high scorer for the day, winning the Harold Riley Trophy with 20 points. Ian secured four firsts, one for each event he entered. Marty Dewis followed Ian with three firsts, winning the $\frac{1}{2}$ mile, 1 mile and the 3 mile. Jack Dewis helped Alberta along the way to winning the Cairn's Trophy by getting seconds in the $\frac{1}{2}$ mile and the 3 mile. Jack unfortunately was just beaten out of second place in the 1 mile in the home stretch. Bruce Macdonald upheld Alberta's part in weight events. A freshman, Bob Freeze, showed great promise in the pole vault and the hurdles. Members of the Alberta Team: Ian Cook, Jack Dewis, Marty Dewis, Vernon Drake, Cecil Compton, Albert Marcolin, Brian Gore, Richard Shillington, Bruce Macdonald, Dave Tait, Bob Freeze, Frank Foxlee, Aylmer Ryan, and Bob Meyer.

HELEN ROSE
President

WOMEN'S TRACK

WOMEN'S Track, perhaps under the benignant influence of a prolonged Indian summer, attracted a larger than usual share of Co-ed attention this year.

Among the promising freshettes who took part in the Interfaculty meet were Mary Kelman, in the high-jump, and Eileen Rushworth in the field events. Others included Fern McKeage, Edna Cameart and Vera Funk.

HELEN ROSE
JEAN HOLOWACH

MARY FROST
VERA FUNK

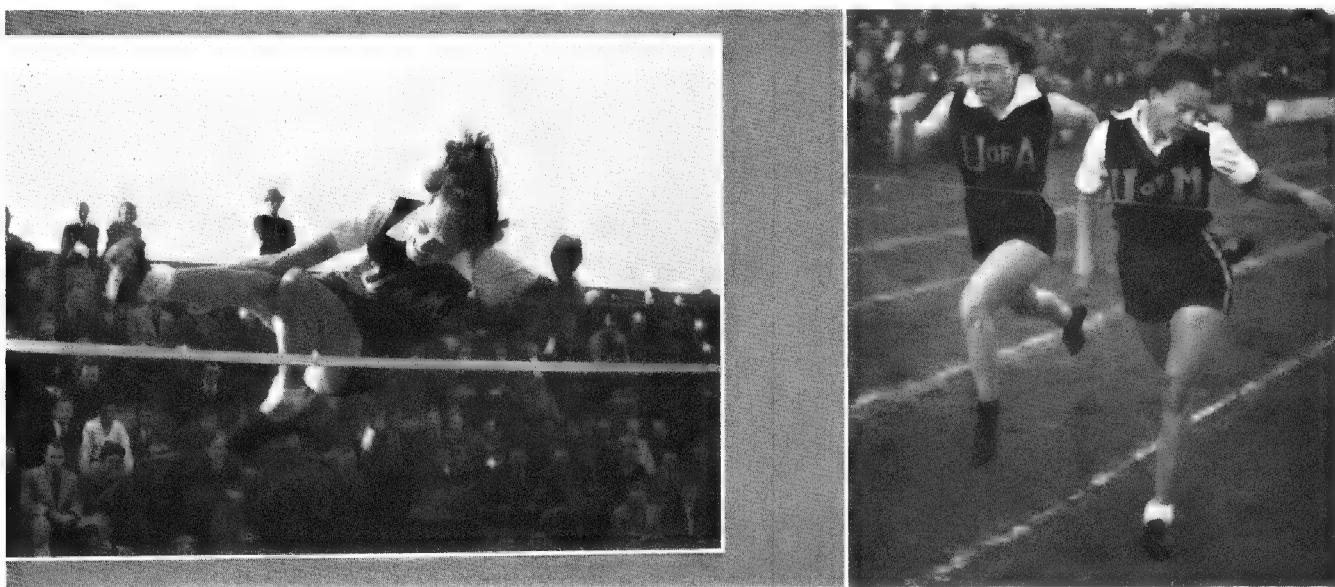

NELLIE THRESHER
MARY KELMAN

DORIS GILLESPIE
EILEEN RUSHWORTH

Two members of previous teams, Doris Gillespie and Helen Rose, fought a close battle for individual honor, with the victory going to Helen Rose by a single point.

Among those representing Alberta at the Intercollegiate Meet were Eileen Rushworth, Nellie Thresher and Mary McConkey in the field events; Mary Kelman and Mary Frost in the high jump, and Jean Holowach, Vera Funk, Doris Gillespie, and Helen Rose in the broad jump and dashes.

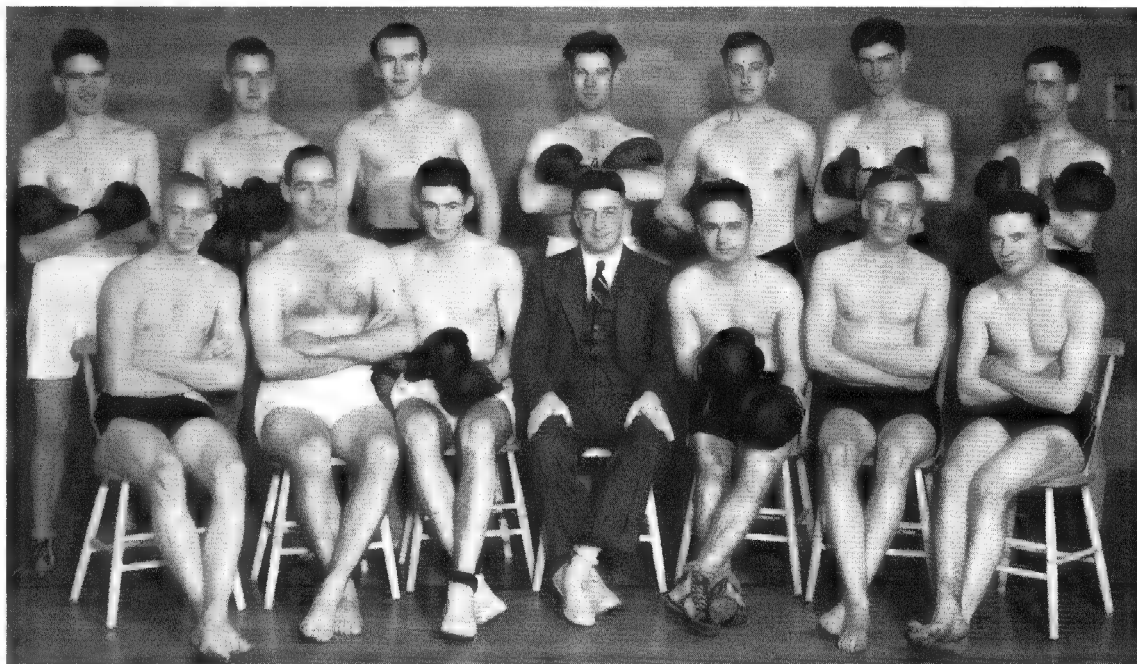

Although Manitoba won the laurels this year the U. of A. girls are confident that with a little more training, and experience, they will be able to field a winning team next year.

MAJOR SPORTS

THE C.P.R. TRACK REACHES CALGARY, 1883

BOXING AND WRESTLING CLUB

The Boxing and Wrestling Club

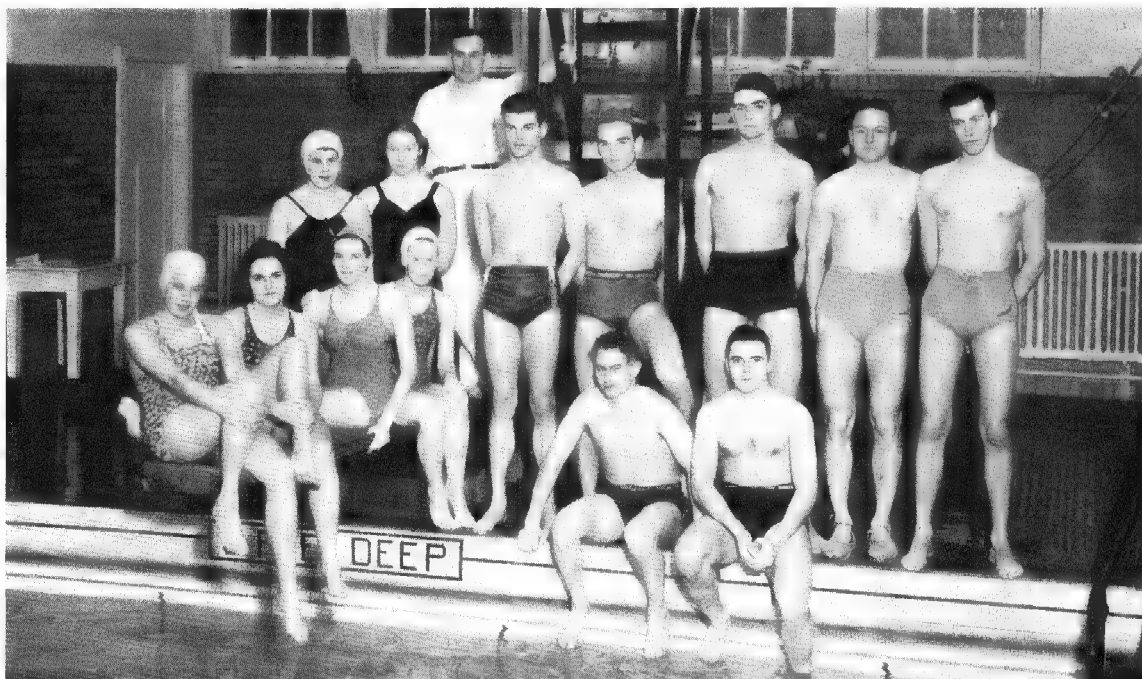

THE Boxing and Wrestling Club, under the leadership of Neil German, Les Willox and Cec Robson, enjoyed another successful season. The boxers were again fortunate to obtain the services of Wally Beaumont as coach, while the wrestlers, under the coaching of Cec Robson, had the largest turnout in the Club's history. From a record number of bouts in the interfaculty tournament, many good prospects were unearthed, and the coaches were able to select a team capable of carrying on the past traditions of the club.

In the spring, five boxers and six wrestlers traveled to Saskatoon for the intervarsity tournament with the University of Saskatchewan. The team put up a very creditable performance although losing the annual encounter to Saskatchewan for the first time in several years.

The winners of the Boxing and Wrestling six inch "A's" were Les Willox, Gene McPherson and Tom Pethybridge; while four inch "A's" went to Cec Robson, Dick Kroening, "Deep" McDaniel, Len Pallesen, Lloyd McLaren, Charlie Vogel, Jim Flynn and Frank Cowle. The winners of the interfaculty awards were Roberts, Cornish, Wright, Driscoll, Carmichael, Galbraith, Schmaka, Hauck, Cameron, McKay, Dixon, Smith, McCormick and Botterman.

BOXING AND WRESTLING TEAM, COACH WALLY BEAUMONT

THE SWIMMING TEAM

The Swimming Club

HANDICAPPED by lack of facilities, and co-operation, the Swimming Club emerged from the activities with moderate success.

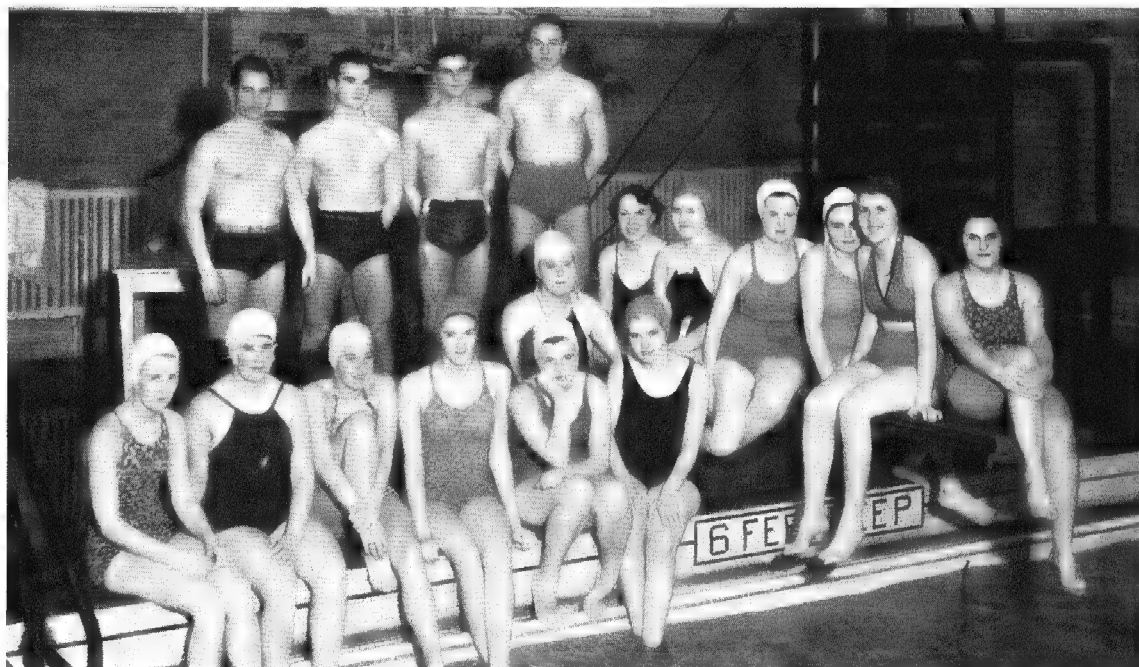

This year both the Men's and Women's teams were defeated in the Intersarsity swimming meet held at Saskatoon. The women's team bowed to Manitoba only after the last race, being eclipsed by two points. Mary McConkey and Mary Kelman deserve special mention for their showings at the meet. The men's team as usual was in third place. However they did manage to get seconds in all the speed events which never before has been done by an Alberta team.

The coach this year was Tommy Chivers who filled this position particularly well, being outstanding in his method of obtaining the last ounce of speed from his swimmers.

The selection of the team was determined from the results of the Interfaculty meet.

Women's Team: Mary McConkey, Beth Rankin, Beth Sovereign, Mary Kelman, Dorothy Edwards and Doreen Kavanagh.

Men's Team: Jack Flavan, Gordon Wilson, Clare Weibe, Murray Smith and Lloyd Greer.

THE SWIMMING CLUB

THE FENCING TEAM

University Fencing Club

THERE are thrills to fencing that few other sports possess, perhaps because of the excitement of a violent, personal-contact sport, that calls for physical and mental fitness, or to the romance generally associated with sword-play.

This spring the Fencing Club completed its fourth year on the Campus, establishing fencing permanently as a sport which men and women can enjoy on equal footing and in any kind of weather at their own convenience.

An enthusiastic group of two dozen men and a dozen women, including many newcomers from the Freshmen Class, lunged and parried or went through footwork routine, twice a week, under the expert coaching of Frank Wetterberg.

The interest on the part of the Alumni is not abating. Some, living in Edmonton, still belong to the Club, while others, who have left the city, are busy organizing new clubs in other parts of the province.

At the Intercollegiate Tournament held in Saskatoon in February, Alberta was well represented by Jean Forster, Ed. Brooke, Dick Hoar and Jim Saks.

The Club's activities for the year were ended by a Junior Tournament and a Fencing Club Party, to which many friends were invited.

The Executive: Leonard Gads, president, and Jean Forster, secretary-treasurer, feel pleased with the season of '38-'39, and hope that the same fencers will be out next year, ready to welcome new members.

THE FENCING CLUB

OUTDOORS CLUB

ANOTHER year, another milestone, and our erstwhile Ski Club, with a new name and broader scope has become one of the largest and most popular clubs on the campus. With a set up which includes other outdoor sports besides skiing, an ambitious year was planned. Unlike most such projects this one has been successfully carried out, and a great deal of credit for this goes to Ralph Fisher and the executive: Peggy O'Meara, Stan Ward, Bill Field and Pete Huelson. We were particularly fortunate in having as Honorary President Dr. Bulyea, whose advice and help was invaluable during the season.

Starting in the fall, special outings were planned for every other weekend, the first being a river boat expedition and corn roast. Work days around the cabin proved surprisingly popular as the men enlarged the ski slopes and built a toboggan slide, while the girls cooked and decorated the cabin. Log sidings, a large addition and new furnishings made the hut a real centre during the season. An expedition to Cooking Lake was held with motor boating and sailing, making the trip a grand success. With snow came skiing and tobogganing. Lessons were held every Saturday and Sunday on the mysteries of the "bounding boards." A fleet of toboggans was added and numerous ski and toboggan parties were held; often during these the enthusiastic renderings of the "ski dance," our own creation, threatened to collapse the cabin.

One of our crowning achievements was a trip to Sunshine Ski Lodge, held during the Christmas holidays. Perfect alpine skiing with all its thrill and grandeur was the lot of the fortunate members who went.

Moonlight ski hikes, sleigh rides, and treasure hunts, combined with really excellent skiing conditions to almost the end of March came along after the New Year. As a grand finale we were instrumental in staging Varsity's first Winter Carnival, complete with Ice Sculpture contests, Hockey games, Ski tournament, Torchlight ceremony and Moccasin Dance; it laid a good foundation for what should become the big events of the season. Marjorie McCullough had the honor of being crowned the first Queen of the Carnival and graciously ruled over her subjects.

As members of the Edmonton Ski Council and Canadian Amateur Ski Association we not only received the benefits of those organizations but did our share in promoting skiing generally in Northern Alberta.

TOURNAMENT RESULTS

Provincial Ski Tournament:

Stan Ward, 3rd; Bob Freeze, 4th, in the combined Downhill and Slalom.

Winter Carnival Tournament:

A Class—Stan Ward, Bob Freeze, Tyndale Madill.

B Class—Dick Mathews, Phil Scott, Doug. Arbuckle.

City Inter-club Tournament:

Men's team, second; Ladies' team, third.

THE ENGINEER TEAM, INTERFACULTY CHAMPIONS

INTERFACULTY RUGBY

THIS year Interfaculty Rugby saw the innovation of six-man rugby which replaced the twelve-man rugby previously played. The more open type of play and lighter equipment made for a much speedier and less dangerous game.

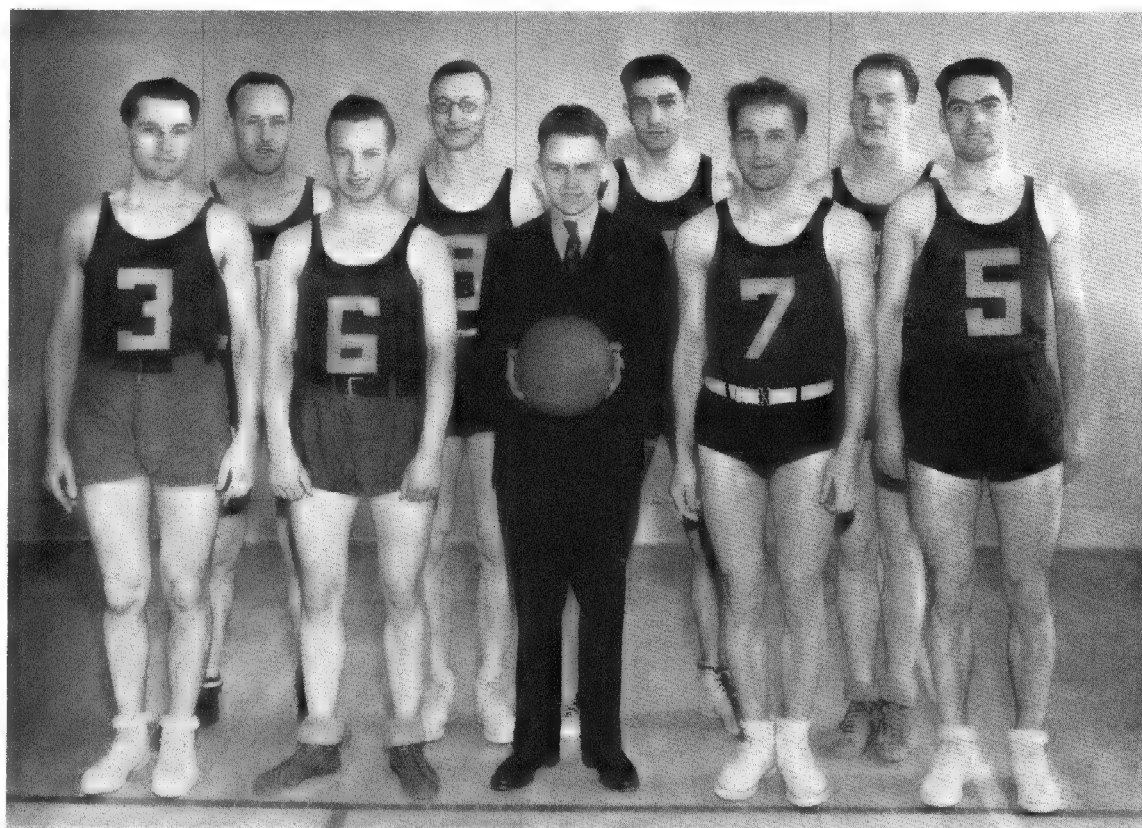

The League opened with a very enthusiastic team from each of seven faculties. Play proceeded until the Aggies, Engineers and Meds were left to fight it out for a victory.

The final game saw the Engineers nose out the Ags to a 1 to 0 win victory on a snow-covered field and in almost zero weather.

INTERFACULTY BASKETBALL

THIS year was very successful for the Interfaculty Basketball League. Seven teams were entered: Arts, Commerce, Engineers, Ags, Meds, Pharm-Dent and Law. All games played featured close scoring due to well balanced teams, and interest and enthusiasm ran very high throughout the year, judging by the large turnouts.

In the finals, the Arts team won first position over the Commerce team by the narrow margin of two points. Both teams had gone through the year with only one loss when they reached the finals. In the semi-finals, the Arts team forced last year's cup winners, the Engineers, into third position.

THE ARTS TEAM, INTERFACULTY CHAMPIONS

THE AGRICULTURE TEAM, INTERFACULTY CHAMPIONS

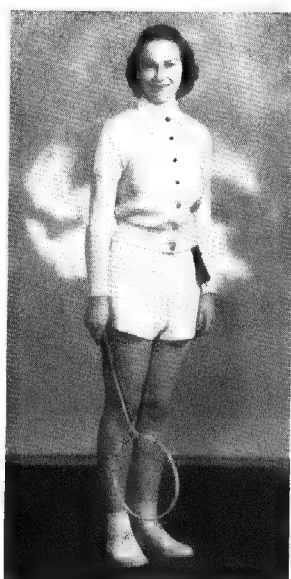

The Soccer Club

THE Soccer Club, under the Presidency of Jack Grimble, has just completed a very successful year. The weather being ideal, all games of Interfaculty League were played off.

The Interfaculty league was composed of three teams: the Agriculture, Engineers, and Arts-Med-Dent. The managers were: Tom Brown, Jack Reynolds and Jack Sinclair respectively. The league was scheduled and played, and the Ags came through on top with the Engineers a close second.

The Senior team was fortunate in being able to travel to Clandonald and play a return game, losing after a hard fought game, 4 to 0.

The season finished with the Annual Banquet and election of officers.

LOUISE MARSHALL
Vice-President

The Badminton Club

THE Badminton Club carried on a successful season with many new members to replace those who had left. Playing as a whole throughout the club was improved over last year and present indications point to an even stronger club for next year.

An American Tournament was held in the fall which brought out many players, and started the season very successfully. In the Annual Varsity Tournament Rae Fisher won the Men's Singles after a hard fought match with Bill Tobey, last year's winner. In the Ladies' Division Louise Marshall captured top honours by defeating Sheila Stewart.

A team was entered in the Edmonton City Tournament and although no championships were won, Rae Fisher was runner-up in the Men's Singles. In the Alberta Tournament Rae Fisher and Louise Marshall offered strong competition to the more experienced Calgary players.

MAXINE THORBURN

EILEEN RUSHWORTH

TENNIS

AS a result of the fall University Tennis Tournament, Maxine Thorburn, Eileen Rushworth, Bruce Sangster and George Murray represented Alberta in the annual intercollegiate tennis meet with the University of Saskatchewan. The meet, held in Edmonton this year, was won by Alberta for the seventh consecutive time. Alberta lost only one match and won six.

The annual tournament was completed early in the fall, thanks to the efficient work of the managers. This is the first time for a number of years that the men's division of the tournament has been completed, the credit going to Sam Costigan. In the women's section Maxine Thorburn won the title and Eileen Rushworth was the other finalist. In the men's section Bruce Sangster played sparkling tennis to win the title with George Murray a close second.

GEORGE MURRAY

SAM COSTIGAN

BRUCE SANGSTER

INTER- FACULTY HOCKEY

THE ENGINEER TEAM, INTERFACULTY CHAMPIONS "A" LEAGUE

MARCH 4th saw the finish of another successful season of Interfaculty hockey. A season consisting of about one hundred and fifty well contested hard fought games.

The Engineers repeated last years performance by winning once again the "A" League championship. However, it was not a walk away, for it was a battle to the finish to beat the Arts-Com-Law aggregation. The Arts-Com-Law team defeated that of the Ag-Pharm-Dents to enter the finals. The Meds occupied the cellar position.

In "B" League, competition was keen. The Engineers, after winning the league standing, were defeated in the finals by the Arts-Com-Law. The Ag team, a new entry to the league this year, placed third. The Meds, following the example of their brothers in "A" League, occupied the bottom position in the league throughout the season.

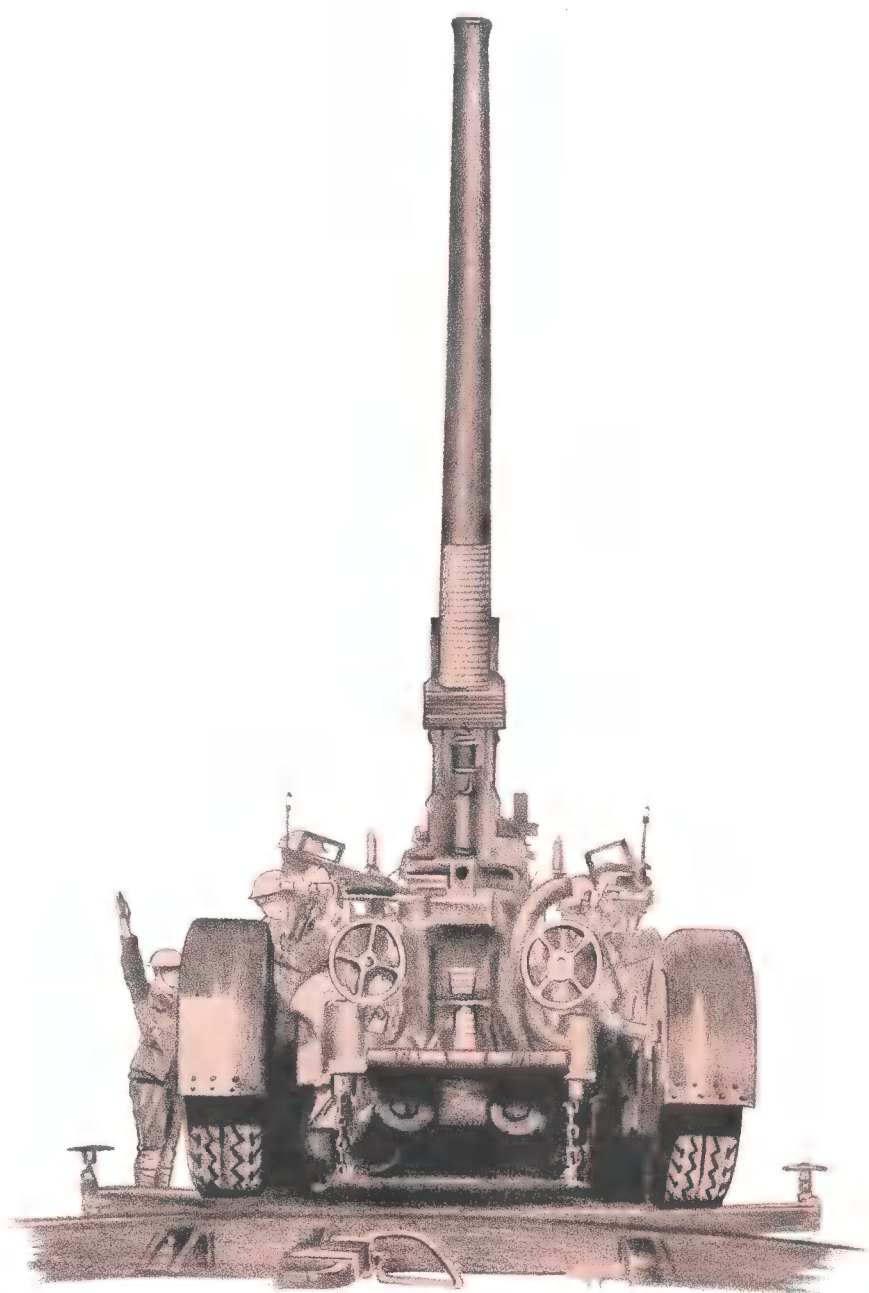

The season was marred by a very bad accident, that of Jack Skilitsky who fractured his skull. Hope for a complete recovery is the wish of all.

Thus we leave Interfaculty hockey for another season. Will the Engineers be beaten next year?

THE ARTS-COMMERCE-LAW TEAM, INTERFACULTY CHAMPIONS "B" LEAGUE

Military

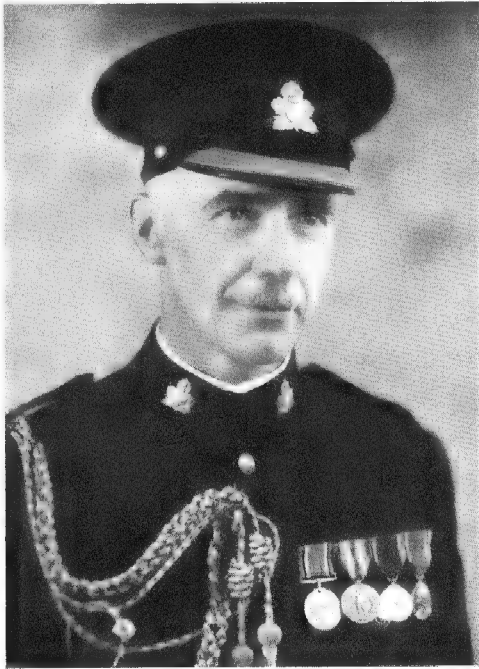

L.O.T.C.

FIRST C.P.R. PASSENGER TRAIN ARRIVING AT CALGARY, 1886

University of Alberta

LT.-COL. E. H. STRICKLAND, A.D.C.
Officer Commanding

ON the day set aside for enrolment of new members in the C.O.T.C. Chamberlain flew to Munich to confer with Hitler and the question as to whether the world would have peace or war hung in the balance. Members of the teaching staff of the Unit wondered what effect this would have on the numbers who would enrol for training. The answer to this question was 285 in comparison with 241 in the previous year.

This was most gratifying, for the results of the 1938 War Office Examinations had exceeded all records; 113 members had obtained certificates and it was hoped that even this record could be increased. That there are good prospects may be judged from the fact that, in the practical portion of the examination, 183 candidates, were successful despite the fact that the examination was, admittedly, more rigid than any which had been held previously.

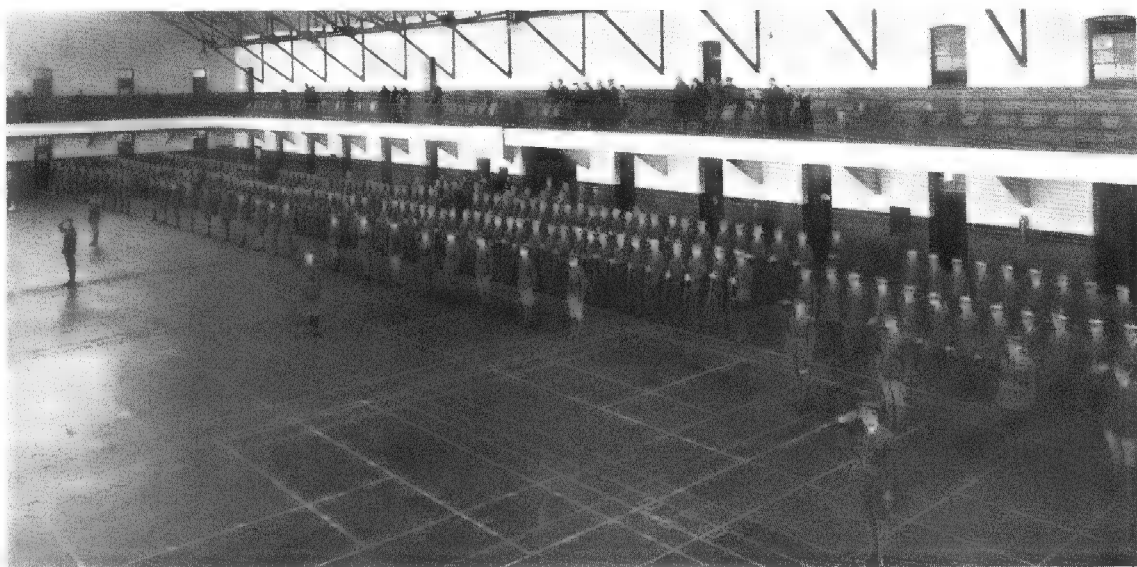

SUMMARY OF TRAINING

Exceptionally fine weather during the first six weeks of the training season presented opportunities for a number of parades in the open, for several tactical exercises, for machine gun and Lewis gun practices at the Winterburn range and for Cavalry candidates to discover how it felt to have a horse under them.

In addition to the regular semi-weekly instructional parades, bi-weekly drill parades were held on Saturday afternoons at the Prince of Wales Armouries. Attendance at these was voluntary but it is just possible that the dollar bill which was handed to each

"volunteer" at the termination of each of these parades played some part in keeping the average attendance over the two hundred mark.

The Unit was inspected on February 18 by the D.O.C. Brigadier G. R. Pearkes, V.C., D.S.O., M.C. The accompanying photograph shows as many of the members as could be squeezed into the picture, giving the Royal Salute to His Honor, Colonel Bowen; Honorary Colonel of the Unit.

"THE ROYAL SALUTE" AT THE ANNUAL INSPECTION

Contingent, C.O.T.C.

OTHER UNIT ACTIVITIES

At a full-dress parade, called early in December, His Honor, Colonel Bowen presented the prizes which were won in the 1938 examinations.

In connection with the 1939 examinations His Honor has most generously offered four medals, gold for the highest and silver for the second highest marks obtained in the "Common to All Arms" paper in each of the "A" and the "B" Certificate examinations.

The Officers' Mess Dinner was held in the Connaught Armouries on December 11th. Dr. Kerr and Brigadier Pearkes were among the guests.

The annual Unit Dance was held on January 6th. This event still appears to be the most popular "parade" of the season.

At the special request of His Honor, the C.O.T.C. provided the Guard of Honor at the opening of the Legislative Assembly. The Guard was highly complimented on the smartness of its appearance and its soldierly bearing.

The Annual Unit Dinner followed the Inspection on February 18th. This was much enjoyed by everyone even though it was observed that the time devoted to speeches far exceeded that of the actual dinner.

MAJOR P. S. WARREN
Second in Command

INSTRUCTORS

Following the tradition of the Unit, practically all of the instruction, in all Arms, was given by its own members, among whom we, of course, include our instructor-in-chief Q.M.S.I. Evans, M.C., P.P.C.L.I., and S. I. Whittaker, R.C.S.

Particular credit is due to the many student instructors who, in addition to carrying their normal heavy load of University studies, find time to prepare and to deliver instruction to Certificate candidates. That such instruction is second to none in Canada is proved by the outstanding examination returns of the Unit.

Members who instructed this year include:

General—Lt. Col. E. H. Strickland; Major P. S. Warren; Q.M.S.I. J. O. R. Evans, M.C.

Cavalry—Lts. J. R. C. Carter, K. A. C. Clarke, J. W. Pipes; Cadets H. S. C. Archbold, D. K. Robertson.

Artillery—Capt. W. S. Ziegler; Lt. J. H. Hugill.

Artillery Surcey—Capt. W. S. Ziegler; Lt. J. T. Pattenson.

Engineers—Capt. R. M. Hardy; Lts. J. B. Corbet, J. D. Allan.

Signals—Lt. C. F. Pattenson; C.S.M.I. T. S. A. Whittaker.

Infantry—Lts. H. J. Bishop; A. E. Langston; R. E. Marfleet; D. C. Matthews; D. M. Jacquest; C.S.M. D. B. Mundy.

Machine Guns—Lts. J. Constabaris, G. D. Carson, C.S.M. I. C. Paterson.

SCHOLARSHIPS AND PRIZES

The Unit gratefully acknowledges the following Scholarships and Prizes which have been awarded to its various members:

Alberta Military Institute Scholarship for the highest mark in "B" Certificate Examination: 2nd Lieut. R. E. Bell (Medical).

Edmonton Military Institute Scholarship for the highest mark in "A" Certificate Examination: Cpl. S. Goto (Engineers).

Canadian Infantry Association Prize (Open competition between Infantry members of all Contingents of the C.O.T.C.) Third prize in "A" Certificate Examination: Cpl. J. W. Bailey.

N.D.H.Q. Prizes for the two best shots in each company:

"A" Coy.: Cadets E. N. Edwards, G. E. Alger.

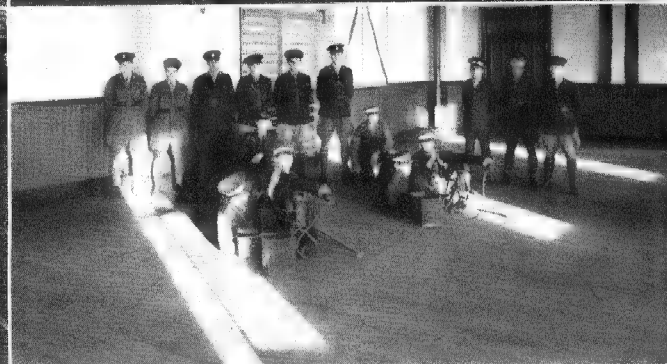

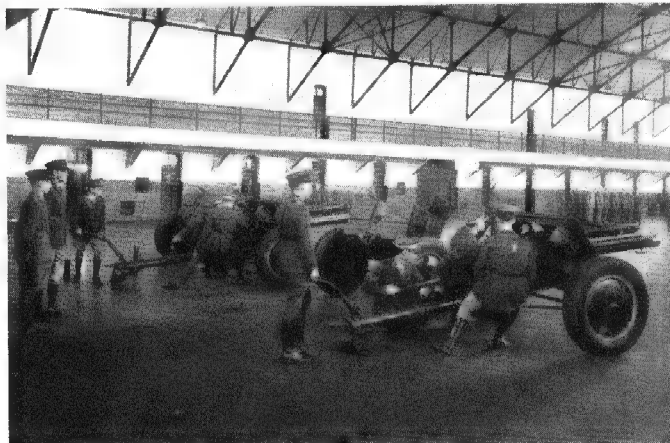

"B" Coy.: Cadets E. W. King, W. A. Hiller.

"C" Coy.: Sjts. O. D. Steed, M. A. Kyle.

"D" Coy.: Cadets A. J. Spence, G. H. Sissons.

COMMISSIONS GRANTED IN N.P.A.M. AND OTHER UNITS

In addition to Commissions granted within the Unit to its own members we have received word of 25 past and present members who have obtained Commissions during the year in other Units. We would again remind everyone that there is no official channel through which we receive information regarding Commissions which have been obtained by members of our Unit and would urge them to send us this information personally and to let us know if they hear of any other past member who has obtained Commissioned rank.

ARTILLERY
ARTILLERY SURVEY

ENGINEERS
MACHINE GUNNERS

ROYAL CANADIAN AIR FORCE

Nearly thirty members of the Unit were provisionally accepted for Commissions in the R.C.A.F. in February, 1939. At the time of writing we have no information as to how they have fared in the very thorough medical examination to which they have had to be subjected before their applications are finally approved. The four members who obtained commissions last year are unanimous in stating that they could not ask more of life than they are now experiencing.

COURSES ATTENDED BY MEMBERS OF THE UNIT IN 1938

C.S.A.S. "A" Wing—Lieut. E. A. Barlow, C.S.M. J. W. Reynolds.

"B" Wing—Lieut. G. D. Carson, Lieut. I. C. Paterson.

Infantry School—Lts. J. J. Porter, G. R. Macdonald, R. E. Marfleet, D. M. Jacquest, C.S.M. D. B. Mundy.

Signal School—Lieut. J. T. Pattenson, Lieut. C. F. Pattenson.

All members of the Unit are to be congratulated on the results of the year's training. The showing which was made at the Guard of Honor, at the Inspection and in the Practical portion of the War Office examination is a sufficient proof of the whole hearted support which the members have given to their Instructors.

It is sincerely hoped that every member who returns to the University next year will continue the work so well begun by taking a further year of training with the U. of A. Contingent, C.O.T.C.

GENERAL VIEW, CALGARY

Disappreciation

IN a volume such as this there are bound to be a certain number of mistakes. They are, without fail, blamed on the Year Book Staff. In certain cases this censure may be justified. However since the burden of checking and re-checking about two thousand prints, and the proof-reading of the entire book, falls on the shoulders of one person, it is too much for anyone to expect an absolutely perfect Year Book.

It should be noted, however, that many errors are made solely on account of the carelessness and negligence of the students themselves. The slips which have to be filled out at the various photographers provide the starting point for many mistakes. In the past, the filling out of these slips seemed to cause many a great deal of trouble. This year a more simplified form of slip was introduced. At the top in large print were the words, "Use Block Letters Only." It was indeed a monument to the reading ability of University students when over half the slips which were received were written in longhand. This in itself would not have been too bad had not half of those written been scrawled in an illegible fashion. The reason why some names appearing in this book are spelled incorrectly is because they were quite unreadable on the slip. These slips were so numerous that it was impossible to check the spelling on all of them.

Other mistakes were caused by the incorrect filling out of the slips. One example found was that of a third year Medical student who was graduating in Arts. His slip was filled out as if he were graduating in Medicine and he was so placed in the book. This error was not discovered until it was too late to correct it. Other errors of this kind can be traced directly back to the slip which was made out by the student himself.

There will be complaints that pictures were left out. That is quite true. Definite deadlines were set for each class and any picture taken after a deadline may not be in the book. However every effort was made to include late pictures at the risk of making the book late. Any pictures which were left out were so late that the engraving of the cuts had commenced and it was not possible to include them.

Incorrect spelling of names in the club or fraternity section is usually the fault of the person making out the club list. Many lists were handed in, written in a scrawled and hurried manner which made it exceedingly difficult to transpose the names correctly. There were many cases also where the author of a list obviously did not know how to spell many of the names on the list.

It is unfortunate that many students apparently believe that the Year Book staff are endowed with supernatural powers of clairvoyancy. If it were only realized that the only information about the students which is available, is on the slips which they make out, then there would be very few mistakes in the Year Book. As it is now, mistakes do appear in the book which it is impossible for the staff to catch and a great deal of valuable time is wasted in the Registrar's office filling out incomplete slips and correcting obvious mistakes.

In all likelihood next year, an even more simplified type of slip will be provided which will probably be more suited to the mentality of those who have found the present type so difficult to understand. Certainly it is hoped, with doubts, that the imaginary pitfalls which have so far attached themselves to five or six simple questions will be removed.

CALGARY 1886

Appreciation

BY the use of reproductions of photographs on the sub-introductory pages, an effort was made throughout the book to portray various Alberta scenes of fifty years ago contrasted with the same scenes as they are today. In order to accomplish this we were faced with the difficulty of obtaining actual photographs taken while the West was still in the pioneering stage. The success which we had in obtaining the photographs which are reproduced in the pages of this book is due to the kindness and co-operation of various people and companies.

We would first of all like to express our appreciation for the generosity of Mr. Harold Riley, an oldtimer of Southern Alberta and Secretary of the Southern Alberta Pioneers' and Oldtimers' Association. It was entirely through his efforts that we had the use of the many photographs of Calgary in its early days. These photographs, some of which were among the first taken in Alberta, were invaluable and our sincere thanks is tendered to Mr. Riley.

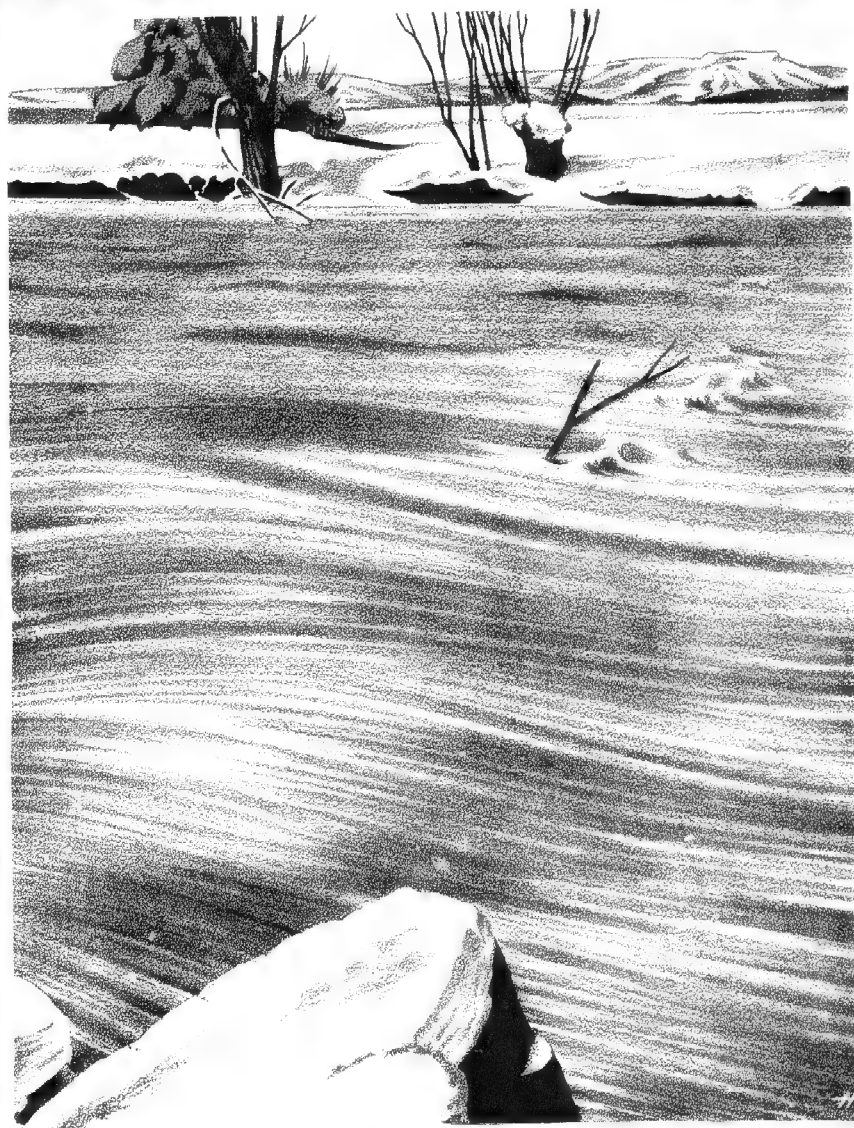

The City of Calgary donated three modern views of that city and we would like to thank Mr. Miller, the City Clerk, for the trouble he took to obtain them for us.

The Canadian Pacific Railway allowed us the use of the very rare print of the first through passenger train entering Calgary and one of the modern Chinook. We wish to express our appreciation for the trouble to which this company went to oblige us.

Mr. Ernest Brown of Edmonton also is deserving of our thanks. His co-operation in aiding us to find the most suitable photographs of early Edmonton from among his large collection was always available and his reduced rates for the use of reprints was greatly appreciated.

Two Edmonton photographers donated various modern Edmonton scenes and in each case they received a suitable credit line.

J. B. CORBET,
Director.

The Snow Melts . . . the River Flows

Life is not a rigid thing. Life flows. The swirling current of events, the surge of people striving and desiring—this is the stream. Those who would go with it safely to the open sea of fulfillment must measure its changing force and its direction with understanding.

"B.A."

BANKRUPT ACHIEVEMENT

OR

BUSINESS ASSET?

THE young man who starts a business career with a University Education has a choice of two roads to follow

He may permit himself to be overwhelmed with the importance of his position and spend his time lost in admiration of his parchment or musing on the glory of the great days that are gone. Result--his B.A. and his years of study are a completely Bankrupt Achievement

He may, on the other hand, put his superior training to work for him by adapting it to new needs, new conditions. He can apply his carefully developed **ability to learn** to new fields, new problems--and so make of his B.A. a Business Asset "more precious than much fine gold."

As this is true for a Graduate, so a large retail organization cannot rely on its name and past history if it is to survive. How long would we remain in business if we went into the market of the world and just picked out the merchandise that someone else offered, the styles that someone else suggested, instead of searching and looking and rejecting and selecting until we knew we had exactly what our customer wanted? How many of our advertisements would be read, if we recklessly puffed the quality of our wares or their performance instead of taking time, effort and study to test and verify the truth of all our statements? How much customer confidence would we enjoy if we "Let the Customer Beware" instead of backing every transaction with our guarantee of "Goods Satisfactory or Money Refunded"?

The name "Eaton's" doesn't keep our doors open. It's our constant study of the needs and wishes of our customers, our constant use of the experience we have gained through years of successful operations that counts

MODERN MASSEY-HARRIS COMBINE

Saves Time—Saves Labor—Saves Money

**New Records in Economy Effected with
101 Tractor and Small Reaper-Thresher**

Never before has it been possible to harvest grain mechanically at so little cost and with such little effort as can be done with equipment now available.

With the new Massey-Harris power-take-off Reaper-Thresher and 101 Tractor farmers say they can take off their crops at an out-of-pocket expense of less than a gallon of fuel per acre. That works out at an amazingly low cost per bushel, and by thus widening the range between costs and returns more margin is left for profit.

Added to the great convenience and money-saving advantages of the combine method of harvesting is the fact that the investment required today for such equipment is considerably less than that of several years ago. Your local Massey-Harris dealer or nearest branch will be glad to give you full particulars.

Achievement

IS THE EFFECT OF PENETRATION—FOR IT IS ONLY THOSE THINGS THAT PENETRATE THE RECEPTIVE MIND THAT ARE AVAILABLE FOR FUTURE REFERENCE. THOUSANDS OF BUYERS HAVE LEARNED OF THE QUALITY OF WOODLAND BETTER DAIRY PRODUCTS—THEY RETAIN THIS KNOWLEDGE AND VERIFY IT DAILY BY USING WOODLAND MILK, BUTTER, ICE CREAM AND CHEESE. YOU WILL MAKE NO MISTAKE IF YOU FOLLOW THEIR EXAMPLE.

IS
THE "GATEWAY" GOING TO BE OUT THIS WEEK???

LINES TO ONE GROWN COLD

*Are all my efforts then, in vain?
Can't I rekindle once again
The glowing flame that, heedless, I
Have left to smolder and to die?*

*Is there no spark, no dying ember,
Some loving word that you remember,
For me to fan, and nurse, and cherish?
It must be so, or I shall perish!*

*My cup of bitterness is filled;
I stand before you, bleak and chilled—
You only stand and coldly stare,
And let me cry, and storm, and swear
That ere another Winter pass,
I'll have a furnace fueled by gas!*

—JOHN M. WILLIG.

Neil Davidson, Business Manager of the Philharmonic, has that worried look—is it finances Neil or was some-one singing flat?—and Isabel Stanley is just all worn out

YOUNG MAN

... going places!

HE may not be a big executive . . . YET. But watch him!

He's working hard, studying, saving his money. His eye is on something BIG. He won't stay put. There are thousands of young men like him in Canada today—men, who in five more years will be leaders in their communities...

YOUNG MEN... *going places.*

Many of these young men are friends of ours. Often they come to our managers with financial perplexities and for a frank discussion of knotty business problems. Our managers welcome such visits.

Strong men tremble and the ladies faint. A close up of the
photographer's weapon.

Sight is Priceless

in your efforts for
achievement

After you graduate, an invaluable asset in winning your desired success will be GOOD VISION. It will enable you to put into practice more effectively the things you have learned while attending the University; and will assist you in securing further valuable knowledge through both study and experience. . . . Sight is responsible for 87% of all impressions received.

Sight, however, must be aided by adequate light. And only by the use of adequate light can you secure maximum benefit from good vision . . . either in securing knowledge, or putting knowledge into practice.

SAFEGUARD YOUR SIGHT

The Undergraduate and His Future

UNDERGRADS look forward to the time when they will have their degrees and to making practical application of the knowledge they have gained at the University. They look forward to years of activity in their chosen profession or business. Optimism is the keynote of their plans.

Among these plans it would be well to include the matter of Life Insurance which has a direct bearing upon every man's future and every woman's as well. The younger you are, the cheaper is the upkeep of insurance on your life. As you grow older the rates increase. As most men intend sooner or later to provide adequate insurance for themselves and their dependents, it is best to consider this protection as early as possible.

Graduates of 1939 should consider NOW the value of life insurance. It is the best investment you can make. You can't lose. You have a wide choice of the kind of insurance best suited to your needs. Any of our representatives in the Calgary or Edmonton offices will go into the matter thoroughly with you, without obligation on your part.

In Appreciation

ON this, the final page, may I on behalf of Evergreen and Gold give recognition to a body of willing supporters who to a large extent make this volume possible.

Without their wholehearted cooperation so readily given it would be impossible to attempt a venture of this size, and Evergreen and Gold could not hope to hold its enviable position in the van of college year books.

I refer to the business and professional men who are represented in the advertising pages of this book. It is they who lead in Canadian industry and local enterprise and we are indeed fortunate to benefit by their manifestation of interest in the University and its various fields of student activity.

May I, gentlemen, convey to you the sincere appreciation of Evergreen and Gold 1939 as well as the entire student body for your enthusiastic support and at the same time assure you of our continued and increasing patronage.

George E. Mowat,

Business Manager
